

EASTER PARADE

An eye catching program is being prepared for next Wednesday, March 11th, when the P.-T. A. Ways and Means Committee with the cooperation of Ballenger's Department Store stages a Spring Fashion Show of latest styles in men's, boy's, girl's and women's attire. During the show, door prizes will be awarded. Naturally, there's a purpose in all this activity—to entertain of course—but also to make enough money to finish paying for the playground equipment now in use on Tryon school grounds.—Contributed.

THE BOOK OF KELLS

Between 500 and 1000 A. D. one of the great arts of Europe was that of illuminating manuscripts. This art reached its highest perfection in Ireland, and the Irish "Book of Kells" is considered to be the finest existing example. The British Association Handbook calls it "the most beautiful book in the world." In it are the four Gospels written in Latin, in a script decorative to such a degree that in some cases a page contains only one word. Each capital is ornamented with geometrical designs, interlacing spirals, floral, bird, animal and human forms all brought into a harmonious design, often so detailed that it cannot be fully seen by the naked eye, and colored in soft and lovely coloring.

There have been many attempts to reproduce this book. I have just received a copy of the latest, containing 24 of the most beautiful pages and initial letters. You are invited to come and see it.
