## COLUMBUS PLANNING COMMUNITY CENTER

By Mrs. Edward Staggs.

A group of enthusiastic citizens of Columbus met at the Firemen's Hall Thursday night to complete plans for the construction of a community building at the old Denton Spring Park. This building to be a 30x40 concrete block structure. Various clubs and religious organizations were represented and both labor and financial pledges were given for the work to continue. The young men's Bible Class of the Baptist Church have done much toward this project by having the road to the park worked and paid for, bulldozing the ground for the building. The class was represented by Willie West.

Councilman Douglas Roper spoke of the future upkeep of the park and pledged cooperation from the town in many ways including extending water mains to the project. F. M. Burgess and J. A. Wilson a committee from the Presbyterian Church offered whole-hearted cooperation.

Mrs. C. O. Jordan represented the Columbus Garden Club and Columbus civic clubs. The Garden Club agreed to furnish shrubs and plants for the beautification and club members will do the planting.

Mrs. W. W. Breazeal, president of the Outlook Club, also offered to join in the landscaping and also in cash donations.

Plans were made for benefit entertainment to raise funds for the project.

N. R. Rector Sr., of St. Petersburg, Fla., is visiting his family in Tryon and Spartanburg.
