

— SCHOOL DAYS SAVINGS —

Start a savings fund the first year of school and put your spare money in a savings account with the TRYON FEDERAL SAVINGS & LOAN ASSOCIATION. It will make more money for you with good interest.

The savings, plus the added interest will give you something for vacation next year, or a nest egg for something you need later, a car, college education, a home and many other things that seem too big to do at once. But regular savings with us each week will do the trick, and you'll be surprised how fast your money will grow to make it possible for you to get the things you want.

It's fun to save money. An interesting game in many homes where all the family join in to see how much they can save to get things needed later. You always win.

Come in today. Start a savings account for some child as a present. You couldn't give anything nicer.
