New Greenskeeper At Tryon Country Club

Bruce Wilson has been appointed to the position of Superintendent of Grounds and Greens at the Tryon Country Club. A native of Polk County, Mr. Wilson is a graduate of Western Carolina University with a Bachelor of Science degree in Marketing Management. He replaces Hemon Burns, who has requested that he be relieved of the full responsibility of greenskeeper; however, Mr. Burns will continue on with the Club as a working consultant.

Although Mr. Wilson had successfully embarked on an industrial career with Deering Milliken Textiles, he really wanted to become a greenskeeper. He was born and raised adjacent to the Tryon Country Club and worked there during the summers for ten years as a caddy and maintenance man. He came to work again at the Country Club on May 1, 1979, as an assistant to Mr. Burns, the Dean of North Carolina greenskeepers. Mr. Wilson belongs to a family of dedicated greenskeepers. Besides his grandfather, Hemon Burns, who was Superintendent of Grounds and Greens at Tryon and Red Fox Country Clubs over a period of 35 years, he has three uncles who are presently employed as greenskeepers at Biltmore, Charlotte, and Red Fox Country Clubs.
