Eastern Flora At Bird Club

"Color, Form and Variation" as found in nature will be the subject of an illustrated slide talk by Ivan J. Kuster Thursday at 10 a.m. at the March meeting of the Tryon Bird and Nature Club in the Fellowship Hall of the Tryon United Methodist Church.

Mr. Kuster has been a keen observer and photographer of nature throughout his life. A native of Buffalo, New York, he graduated from the school of Forestry at Syracuse University, where he majored in botany, and has been a leader and lecturer for a number of organizations associated with ecological preservation, including the Adirondack Mountain Club, the Alleghany Nature Pilgrimage, the Federation of Ontario Naturalists and Nature Conservancy.

Mr. Kuster's talk will be illustrated by slide photographs he has taken over the years in a variety of areas in eastern North America, including the Bruce Peninsula on Georgian Bay and the Adirondack, Appalachian and Blue Ridge mountains. He moved to Tryon in 1977 and has continued his botanical interest here with study trips of southeastern flora in the mountain, piedmont and coastal areas.

The public is invited to attend the Bird Club meeting.

What's Wrong With Home Folks?

We don't think anything — Because that's what we are. Some of us are transplanted and some have been here most of our lives, but we all love our area and know it pretty well. That makes us really able to serve the needs of those who seek help in real estate. Maybe you need to sell, Maybe buy. Regardless — our main concern is to help you get fair and honest representation. Call us.
