a space. It could be executed by a North Carolina artist and would add immeasurably to the library-art center complex.

I would propose that a fund be established for this purpose, to be called the Samual and Jane Abernethy Fund. The late Mr. Abernethy and his wife, a present resident, were some of the first horse lovers to move there from the north. He was a highly respected and beloved citizen, as is his wife, who has been an outstanding horsewoman and is a person of great dignity and courage. If this suggestion meets with any approval, notify The Bulletin, and I will be happy to deposit a small nucleus at NCNB for this purpose.

Thank you for your Southern hospitality.

Attended Course

Sandra Covil of Paint 'n Paper, Etc., Landrum, recently attended a 1½ day Floor Fashion Center Color Coordination and Design Course in Charlotte, North Carolina, conducted by Armstrong Cork Company's Interior Design Center.

The course is offered to firms who have recently become authorized Armstrong Floor Fashion Center retailers. Over 3,000 persons from across the nation have attended to date.

Floor Fashion Center retailers offer the public a complete resilient floor covering center designed to provide professional advice and assistance.

Current fashion trends, popular architectural styles and the latest floor covering decorating techniques were discussed. The information obtained will allow Floor Fashion Center retailers to offer assistance to customers that have decorating questions.

Senior Citizens' Meeting Changed

Expanding The Bureaucracy

While Congressmen talk of stopping inflation by reducing federal spending, a new bill in the House of Representatives proposes to expand the federal payroll to an enormous degree.

This bill would encourage federal agencies to go in business for themselves whenever they felt they could produce the goods and services they use better than private business does.

Why would any agency head want to do that? It's simple. The more people an agency head has working for him, the higher salary he gets.

Just two weeks ago the U. S. Small Business Administration completed a six-months study showing it costs taxpayers 50 percent more for government agencies to produce the goods and services they use instead of buying them from small, private businesses.

So, we believe this new bill is a bad bill. It would increase the cost of goods and services that must be paid for with taxpayers' money, and worse, it could destroy several thousand small businesses, putting their activities into the hands of politicians. — WRAL-TV Editorial
