THEN and NOW

THEN: Since the early days of television, the nation's hearing-impaired population could see programs on the screen, but they couldn't understand what was being said. The picture improved somewhat in 1975 when the Public Broadcasting Service (PBS) began offering a few "open captioned" programs. With this system, captions could be seen on all TV screens, but programming was limited due to objections from hearing viewers.

NOW: Beginning in early 1980, a "closed captioning" system will be initiated by PBS, ABC and NBC with the help of the nonprofit National Captioning Institute, which captions television programs. By attaching an adapter unit to a standard TV set or using a set with built-in decoding equipment, viewers will be able to see many major prime-time programs. The decoding equipment will be sold by Sears, Roebuck and Co.

Mrs. Dovie McEntire

Mrs. Dovie Potts McEntire, 97, widow of James E. McEntire of Columbus, died Monday night in Twin Lane Rest Home after an extended illness.

She was born in Jackson County and was a daughter of the late Grady and Margaret Jane Watson Potts. She had made her home here for the past 50 years and was a member of Midway Baptist Church.

Surviving are two grandchildren and five great grandchildren.

Funeral services will be held at 2 p.m. today (Wednesday) in McFarland Funeral Chapel with the Rev. W. Tom Frady and Rev. Alvin Jackson officiating.

Burial will be in Midway Baptist Church Cemetery.

To help prevent falls, choose proper footwear for the job. In winter, remove snow and ice from all walkways or spread de-icers or sand. Walk carefully on uncleared surfaces.

To reduce the risk of falling, use handrails on stairs and always work in sufficient light, indoors or out. Install handrails and new lighting where needed.

Watch for tripping hazards. Clean up work areas and clear tools and other objects from walkways.

Be extra cautious when carrying bulky, heavy or awkward loads. Use a sturdy step-stool, step-ladder or ladder for climbing, not a chair or other makeshift.

THIS IS THE LAW

Sponsored by The Lawyers of North Carolina
LIE DETECTORS

During a criminal trial in a North Carolina court the defendant said that he had taken a lie detector test voluntarily and that the test showed he was innocent. He asked the judge for permission to show the results of the test to the jury.

However, the trial judge did not permit it, and the North Carolina Supreme Court affirmed his decision.

The courts of most states agree that lie detector tests are not

admissible as evidence in court. The reason most often given is that the lie detector has not yet attained scientific acceptance as a reliable and accurate means of ascertaining truth or deception. It has been proved that the device is not perfect.

Other reasons given for not using the lie detector are that the admission of the test results would distract the jury and that the machine could not be cross examined.
