GREENS

By Julie Bender, NCSU

To remove the bitter taste, parboil the greens, drain them, and then return to the boiling water and cook until tender, recommend NCSU agricultural extension specialists.

Young and tender wild greens can also be used as salad greens, they add. Be sure to check them carefully and wash well.

BAGGING IT UP

By Julie Bender, NCSU

Save the fragile and perishable foods until last to avoid damage on automatic conveyor belts.

Be sure to ask that frozen foods be packed in an extra bag if there will be a delay in getting them home.
