**CLOTHING LABELS**  
 By Jan Christensen, NCSU  
 Before you put that new garment into the closet, look at the labels.

Some garments must be washed before they're worn, reminds Harriet Tutterow, extension clothing specialist, North Carolina State University. Others could be damaged just by ordinary washing or drycleaning.

But the label will tell you what care instructions the manufacturer recommends, the specialist points out.

The labels must be sewn into the garment on a permanent basis, Miss Tutterow adds.

*Nothing Has And  
 Nothing Will Compare*

This property was discovered in it's infancy back in the 50's and the owner who now must move away, saw a future in the beginnings of a retirement home which he completed in fine fashion. The livingroom and dining area has beautiful mahogany paneling. There is a fireplace and the mountains can be seen from spacious windows. You will like the sun room just off this area. The kitchen is large and the two bedrooms are a good size. Two baths accomodate them. There are closets galore plus a storage attic. The full basement could serve as a hobby shop and allow for storage. If this is not quite enough room, you need not worry because there is a log guest house in the rear that has a large bedroom and full bath. At the foot of the hill there is a stream and pump house. Tryon water is also available.

You would enjoy, but may not need the 14.9 acres that are included. In that event some building sites could be sold off. CALL US FOR MORE DETAILS.
