

Continued From Page One

Thursday. He was enthusiastically received by the children. The Landrum High Band played for the occasion and a reception was held for him at the high school gym.

This week the man holes, water meters and grates will be raised along Trade Street to get ready for the paving which will begin next week. It will inconvenience everyone for awhile, but won't last too long. Trade Street will be resurfaced from the Town Hall to the railroad crossing near Burrell's Fuel.

The steps up the railroad track from Trade Street to the Depot are nearing completion. The Central Business Committee will officially dedicate the steps and other gardens next spring. The Daffy-Jills Garden Club has agreed to fund the landscaping along the steps.

The Polk County Commissioners will meet tonight at 7 o'clock at the Saluda School.

The American Cancer Society's Crusade Victory Dinner is tonight at 6:30 at the Railroad House.

The Roast Beef or Chicken Dinner is Thursday from 6:30 to 8 p.m. at St. Luke's C.M.E. Church.

Too Bad It Can't Be Bottled

Most of us are acquainted with the Japan Current and the Gulf Stream and are aware of how both influence the areas they touch by raising their temperatures.

Another stream having a warming influence, particularly in DC, is what I call the Political Air Stream. It is always hot, more so in election years and only cools when Congress is not in session.

At that time it dissipates over a wide area much to the annoyance of the residents of those areas its currents touch.

Russell Gratrner

The world's fastest mammals, cheetahs can sprint to speeds of 70 mph, but the average speed for most chases is rarely more than 40 mph, according to National Geographic.

Extension Notes

By Jan Christensen, NCSU

Consumers in the market for major home appliances can now compare operating costs of various models.

Labels with this information must be affixed to refrigerators, refrigerator-freezers, freezers, clothes washers, dishwashers, water heaters, room air conditioners and furnaces.

"The labeling is intended to encourage comparison shopping and to enhance consumer demand for the more efficient products," explains Dr. Justine Rozier, extension family

FOR SALE: Antique Cherry Dropleaf table, \$450, six board pine chest \$200, late Windsor Arm Chair \$175., Bennington caudle cup \$50. 859-9593. adv. 15, 16, pd.

resource management specialist, North Carolian State University.

The labeling of appliances by the manufacturer has been required by federal government regulation since May 19, 1980.

However, due to existing inventories, it may be some time before appliance with these labels will appear in all stores.

The yellow and black labels are uniform in appearance, use the same Energy Guide heading, but differ in the information provided, depending on the type of appliances.

On Saturday, Sept. 20 there will be a basketball game between Green Creek Mass Choir and Peniel at Tryon Elementary School gym at 6:30. Benefit of Green Creek Community Mass Choir Bus Campaign.
