

New Family In Community

Fred Hamilton Rindge IV, DC, began practice on Monday as the new director of the Kale Chiropractic Clinic, Highway 176, S., in Tryon. The Rindge family is renting the "Buddy" Stone home on Hyde Avenue where Dr. Rindge's wife, Katharine Boerner Rindge, an accomplished professional artist, is setting up a studio.

Two Rindge children, Karen, 16 and Sean, 14 are enrolled in the Tryon High School. Fred H. Rindge V is a sophomore at Washington and Lee University, Lexington, Virginia. The Rindges come to Tryon from Emporia, Kansas where Dr. Rindge was associated with the largest chiropractic clinic in Kansas.

Dr. Rindge is the son of Mr. and Mrs. Fred H. Rindge III who recently purchased property on Peniel Rd., Columbus. His grandparents, the late Reverend and Mrs. Edmund Melville Wylie, retired to Tryon in the 1940's where they built the home now owned by Dr. Joseph F. Borg. Dr. Wylie was, for a time, interim minister of Tryon's Congregational Church.

Following graduation from The Darrow School and the University of Omaha, Dr. Rindge spent eleven years as navigator in the Strategic Air Command. He then attended Palmer college of Chiropractic from which he graduated magna cum laude and salutatorian of his class. He directed the Rindge Chiropractic Clinic in Lexington, Va. for six years prior to moving to Kansas. He is a member of Sigma Alpha Epsilon social fraternity and Pi Tau Delta, international chiropractic honorary society.

Mrs. Rindge's paintings are represented in numerous private, corporate and institutional collections. She received awards in juried shows in several states and has eleven one man shows to her credit. She is also an interior decorator. She is a graduate of St. Margaret's School and Ohio Wesleyan University where she met her husband, a former student there.

Mens Garden Club Meets Thursday

The Tryon Mens Garden Club will meet Thursday evening Sept. 25 at 7:30 in the Conference Room at NCNB. The speaker will be Paul Culberson, knowledgeable authority on Carolina gardening. Mr. Culberson will discuss the problems which have resulted from the extremely dry and hot summer and how this has affected the shrubs and lawns, and what can be done to counteract this damage. Members are requested to prepare questions regarding their specific problems for Mr. Culberson to comment upon.
