In the school year 1980-1981, these 30 young men and women entered college with scholarships provided by Milliken & Company, its mills and service companies.

They joined 598 other outstanding young people who have participated in the scholarship programs offered since 1960 by Milliken & Company and its affiliates.

A unique feature of the mill scholarship program provides for a gift of \$750 annually to the independent college selected by the scholarship winner for each year he or she is in attendance.

The mill scholarship provides \$2,000 annually to defray college expenses.

Since the programs were inaugurated, about

\$2,315,000 has been distributed to recipients, and more than
