HOUSEBROKEN, partly grown 5-month-old pup is up for adoption, due to illness of owner. He's everything you'd want a pet to be — good-looking, friendly, caring, good-tempered. "He's just a good dog," his owners say. "and we want him to have a good home where he can have the proper care." He's medium-size, short-haired, and needs space to romp. Call 859-5184 week days only. Cooperation Between Schools

Football fans were favorably impressed when the Polk Central and Tryon High School bands combined to play the National Anthem at the recent football game.

Now the two schools are cooperating again. The Future Farmers of America of Polk Central are selling Indian River Quality Citrus for Christmas presents to raise money and the Tryon High School Band is doing the same thing. Both organizations are selling the same fruit for the same price. Instead of competing, they are cooperating. Both organizations

are splitting advertising costs and working together. Those who want to buy their fruit from the Polk Central FFA may do so and those who desire to support the Tryon Band may do so.

In China, producing one pound of chicken and one pound of pork per person per year creates the need for 100 million bushels of feed, according to USDA.
