Dear Citizens of Polk and Henderson Counties and the State of N. C.:

On December 4, 1980 the Green River Advisory Committee voted on the issue of making Green River a Natural and Scenic River. The vote was 8 for designation and 6 for the Duke Power, State, County and Landowners Agreement. Not a single property owner who owns land anywhere on the Green River voted for designation. Do you think it is fair for a group of special interest people who want to use the river and mostly who do not live in Polk or Henderson County to have this authority over our God given property rights?

The United States opens up her heart, land and jobs to Cuban prisoners and refugees from all over the world, but the property of citizens who have bought, cherished, paid taxes on, and fought and died for can be taken away from them just so some people who happen to "want" the property can have their desires. (Some of these special interest people are from out of state and most all are from out of County). My friends this is not freedom in the United States — it is oppression!

Please let me point out to you that if they can take our property, they can take yours. They say they can take yours, but they only want twenty feet, but their plans are not for twenty feet — it is for the whole area. The beautiful flowers, trees and plants that have been talked about so much do not grow within twenty feet of the river. They do not plan to "preserve" — they plan to develop. If you want Green River preserved, leave it in the hands of the property owners; they have preserved it all these years.

Tryon Daily Bulletin, Fri., Dec. 12, 1980

There was a newspaper article about making the Green River Cove into something like Cades' Cove. My friends do people live in Cades' Cove? Do any families live on any of the government parks and forest lands? I have never seen a single home on any I've visited. I do not feel that there will be families living and farming in Green River Cove either if we sit idly by and let this happen.

If you agree with our position and are willing to help us, please write to Governor James Hunt, Howard Lee, Secretary of

Natural Resources and Community Development, and all the legislators of North Carolina expressing your views. The property you are fighting to save may be your own! You are also invited to attend the Green River Property Owners' Association meeting Dec. 19, 1980 at Mountain Valley Baptist Church in Green River Cove at 7 p.m.

Thank you.

Sincerely Yours,
Isabel B. Reid,
Sec.-Treas., Green River
