## Memo:

Often we receive inquiries regarding unusual property on and above Lake Lanier and more often than not we have to say, "Sorry it is not available today." Well, right now we can tell you about an especially charming "year round" home that is bound to appeal to you and it can be purchased today. On the main floor there is a living room with fireplace, dining area, kitchen, closed-in porch and screened-in porch, two bedrooms and two baths. There is a large upstairs bedroom that connects with an intriguing deck. The downstairs really caters to the imagination! It now includes a laundry, storage room and shop. (further possibilities for the extra space galore). The large yard is nicely landscaped and if you enjoy vacationing at home there is a delightful dock on the waterfront. If you take over this desirable home you will probably never want to move again.
