## Mailed Every Day

A note from Cedric W. Morrison of Chesterland, Ohio states that he has a concern about the erratic span of time for the receipt of the Bulletin. He states that the receipt period varies from 4 to 8 days and wants to know if our staff mails his issue on the same date that it is placed on the newstand in Tryon. He goes on to say that he believes the paper should arrive in a regular unison of every 4 days and not in bunches of every 8 days.

Mr. Morrison we couldn't agree with you more. The Bulletins are mailed every day. We ask the Postmaster to run checks to see what the trouble is, but nothing ever seems to be corrected. Some postal employee along the way lets them stack up (probably in a separation center). We will take this up with the Postmaster also.

## Cost Of Communication System Discussed

In the Polk County Commissioners' meeting 18 January, 1982, a hearing was set for changes in the Planning Board ordinances to conform with the state ordinances: the hearing will be at 6:30, 1 February, before the regular commissioners' meeting.

Manager Steve Wilson reported on the Blue Cross/Blue Shield insurance increases of over \$2000 per month. The commissioners moved to stay with the same company.

Mike Huskey discussed the activities in Polk County of the Farmers Home Administration. They deal mostly with rural housing, and next with farms.

Commissioner Butler reported that trash from the Lake Lanier area has been transported to the Polk County Landfill illegally.

Butler than inquired into the costs of establishing and operating the county microwave Emergency Information System. It is about \$60,000 per year which is \$20,000 over the old system with Tryon. Tryon Mayor Ken Tucker questioned the need for two systems and stated that problems have arisen from interference. Chairman Sauve explained the advantages of the county system to firemen throughout the whole county, sheriff's department, rescue squad, Emergency Medical System, etc. Commissioner Arledge gave
