## First Reading Not The Last

Polk County Manager Steven D. Wyatt responded this week to criticism leveled at the county administration by members of the Taxpayers Association of Polk County.

During their recent membership meeting, association members reported that the county commissioners passed the first reading of a solid waste ordinance "that they (the commissioners) had not previously had time to read."

Wyatt said by approving the ordinance on a first reading, the county administration is putting the public on notice that this ordinance is up for serious consideration.

"The ordinance is on file at the county offices and public comment is welcome," Wyatt said. He said citizens are encouraged to stop by and read the ordinance, or buy a copy.

"This has not been passed into law," Wyatt said. "There will be a month's worth of study done."

## A Letter from The Publisher

We made a mistake. A report in Friday's Tryon Daily Bulletin on the recent meeting of the Taxpayer's Association of Polk County, was written by members of the association and should have been clearly denoted as a "Communication," our headline for all letters to the editor.

Many charitable and civic organizations provide the Bulletin with reports of their activities. These are often tagged at the end with the byline, "Reporter," to let you know that organization has provided the story and not a Bulletin staff writer.

However, due to the political nature of the taxpayers association meetings, and the subjects they tackle, these reports and any others like them will from now on be presented as "communications" of opinion, so as not to be confused with news reports of the Bulletin.

We are happy to have people succinctly express their ideas and opinions, and make fair comment about the way the
