"The only thing the president has decided is something needs to be done about the deficit and that the existing process has not produced results, Fitzwater said.

Richard Darman, Bush budget, director, said he wants about \$45 billion in deficit reduction in 1991. Congressional analysts say that would take new taxes and significant military and domestic spending cuts.

## Schools Athletic Plan Revised

The Athletic Plan for Polk County Schools was revised Monday to add women's and men's soccer, restructure the football teams and add five coaching positions.

The revisions, recommended by Superintendent Dr. James Causby and approved unanimously by the board of education, call for adding women's soccer in the spring and men's soccer in the fall. In addition the football program will be restructured into varsity for grades 9-12, with most players in grades 11 and 12, junior varsity for grades 9 and 10, and middle school for grades 7-8.

Dr. Causby explained. The new structure will allow a full schedule and encourage the lower grade students to compete, he said.

The revisions will require the addition of a women's soccer coach, a men's soccer coach, a men's in-door track coach and two middle school football coaches. School board vice-chairman Terry Edwards asked if there were teachers to fill these positions. Coaching possibilities will be considered as the administration looks for new teachers, Dr. Causby said.
