

## Communication

Dear Editor,

I would like to congratulate the faculty and administration at Mill Spring Accelerated School on their selection for the N.C.A.E. Grant. In addition, I learned that Mill Spring is one of three schools in the state that is being considered for the N.E.A. Learning Lab Initiative Grant. This grant is given to only one school in each state. The school that receives this grant receives additional monies, will be networked with all other schools in the nation that are designated as Learning Labs, and will

receive national recognition.

As a parent of a student at Mill Spring Accelerated School, I have found a new openness at the school and I have seen new and exciting programs being offered to the students. I have learned that the teachers have worked very hard in a conscientious attempt to offer our children more learning opportunities and activities that will keep them interested in school.

I want to take this time to thank Mr. Howell and all the faculty and staff at Mill Spring Accelerated School for all the hard work and effort that they have given during this school year. I also want the community to know the good things that are happening in our school and I also want parents and people in the community to feel free to visit Mill Spring. When I walk the halls, I have always felt like I was a welcome addition to the school.

Last of all, I hope that everyone will take time to congratulate all the people who work at Mill Spring Accelerated School. It is not every day that a school in our county has the opportunity to receive this kind of national recognition and I believe everyone should support this endeavor.

Good Luck Mill Spring Indians.  
Sincerely,  
Janet D. Ruff
