Hawaiian Luncheon

About 65 senior citizens enjoyed an excellent Hawaiian luncheon music by Gay Young at the "Vibs" and entertainment provided by Cynthia Andresan from the "Discovery House of the Arts" at the Fine Arts Center.

Cynthia was a hit in her grass skirt and bare feet. She not only danced the Hula, but instructed a few ladies in the art, including a beautiful three year old guest who was dressed in authentic Hawaiian costume and seriously followed all the Hula instructions to the delight of all. I think her name was "Kristen."

In no time at all we had a Hawaiian chorus line, arms and hips going in all directions to the laughter of everyone involved.

The Meeting Place fully entered into the world of the Polynesians from the "Lei tree" at the front door (a volunteer dispensing a colorful lei to everyone) to the beautiful hand-made flower decorations throughout the building. As my mom used to say "It was a sight for sore eyes."

Fifteen of the seniors were the lucky winners of a fresh pineapple — originally part of the table decorations.

The program was started by Margie Horne's showing of a beautiful Hawaiian video. All the senior ladies outdid themselves in "going Hawaiian" with Mums, beads and flowers in their hair.

We invite you seniors over age 60 to find out about our activities by calling the Meeting Place, Tel. 859-9707. — Reporter

Tryon Police Chief Nathan Shields reports that the girl whose car overturned on Carolina Drive by One Tryon Place last Monday was Angela Curl, 16, of Gillette Woods.

The accident was described in a "communication" last week.

Angela told police she was headed toward Hwy. 176 on Carolina Drive when a vehicle approaching from the opposite direction ran her off the road.

Angela's car slide down a hill and rolled onto its side. Angela was treated for minor injuries.

Shields said there are no eye-witnesses to give a description of the vehicle which forced Angela's car off the road.

Synthesizer Creator Featured In Concert

Synthesizer music is all around us. It is heard on television and radio and in the movies. It is far more tightly woven in to the fabric of our everyday lives than we realize.

One of the pioneers in the realm of electronic music, Robert Moog, creator of the Synthesizer, will be the featured guest artist at the Brevard Chamber Orchestra concert at 4 p.m. on Sunday, Sept. 9 in Whittington-Pfohl Auditorium on the Brevard Music Center campus.

Moog, will demonstrate his creation with the performance of "Concertaire II for Synthesizer and Orchestra" by Harvey Miller, a member of the Brevard College faculty. Moog will also talk about electronic musical instruments and their impact on modern music.

There is no admission charge for BCO concerts. The public is also invited to pack a picnic basket and join BCO friends and orchestra members after the performance for dinner on the Music Center grounds.
