The Weather Tuesday: high 75, low 42., hum. 55%.

The cool weather sure came on quickly. We'll have plenty more warm days, but isn't it odd how each September the wind changes directions one day and summer is just gone, sort of like Mary Poppins.

Dale McEntire of Green Creek will be exhibiting his naturalist-expressionist paintings at the Tryon Fine Arts Gallery starting Sunday, Sept. 30 sponsored by the Tryon Painters and Sculptors Association.

It is time to get serious about reserving your space for the Tryon Hounds Fall Steeplechase, to be held Saturday, Oct. 13. They say this is the one to attend, a bit more intimate and gregarious than the larger Blockhouse Steeplechase in the spring. For reservation information call 859-9998.

Tickets also are on sale for the Moon Howl at FENCE to be held Oct. 4 at 6:30 p.m. There will be barbecue and bluegrass.

Harrison Ford is appearing at the Tryon Theater this week in "Presumed Innocent." If you haven't read the book, get a copy and you'll finish it within a few days. You can't put it down. Then

It's Flu Season

Influenza (Or flu) is a viral infection of the nose, throat, bronchial tubes, and lungs that can make someone of any age ill. In the United States, the flu season is considered the period between November and April. Symptoms of the flu include fever, chills, cough, soreness and aching in the back, arms, and legs.

Flu is not life threatening in healthy people, but elderly people and those with health problems are more likely to be seriously ill or to die from flu or complications.

The vaccine will begin to provide its preventive effect within two weeks and immunity may decrease after several months. It is a common misconception that the vaccine will give a person a case of the flu, but the flu is not caused by the shot. Most people have no side effect from the vaccine, but some may have soreness at the injection site or occasionally have a fever or achiness for a day or two.

Flu vaccines may be received at local private physician's offices and clinics. Flu vaccines will also be available at the Polk County Health Department for Polk County citizens age 65 and older for a nominal fee. These special flu immunization clinics will be held at the Polk County Health Department each Friday from 9 a.m. to 11 a.m. and 1 p.m. to 4 p.m. beginning September 28, 1990. — Reporter
