## Saluda Group Requests Old Voc. Ed. Building

Community Help, a Saluda service organization, has requested the soon-to-be-abandoned vocational education building, but the group will have to provide information on what it would take to bring the building up to liability and insurance standards.

Though the Polk County Board of Education would not be liable for the "green building," as the original education and seminary building of Saluda Schools is called, under a lease agreement, the board wanted to make sure that the group could receive liability and fire insurance on the building.

Group spokesman Melody Gibson gave an estimate of \$9,110 for itemized improvements. However, Superintendent Dr. James Causby pointed out that to meet fire codes, the building would have to be totally rewired.

Once the community group is clear on these details, the board said it has no objections to leasing the building.

Community Help, which is presently seeking legal status, would use the facility for a satellite public library, a residence for the teen group S Traxx and a meeting hall for local community groups. - C. Wharton
