## Planners Approve Zoning District

The Polk County Board of Commissioners were to be presented two new proposed ordinances Monday.

The Polk County Planning and Zoning Board on Thursday approved a new zoning district, the "neighborhood commercial district." The board was expected to ask the commissioners Monday to begin the process of adding the new district to the county's zoning ordinance.

The planners also were to present the commissioners with a rough draft of the proposed county sign ordinance.

The "neighborhood commercial district," if passed by the commissioners, would be used to limit commercial business and service activities along major roads which are in close proximity to residential neighborhoods.

"The types of uses allowed residential character of the area, and not to encourage extensive strip development, but rather to provide concentrations of general commercial and business activities," the proposal states.

The planners also decided Thursday to begin working on a landscaping ordinance to define more clearly the "green space" requirements of the county's zoning ordinance.
