Reader beware: Subliminal messages kept crowding into the *Curb Reporter* today. These are not necessarily the views of management.

The weather Tuesday, high 48, low 30, (Go Redskins. Fight for old D.C., for the Thermal Belt, for western civilization as we know it.) hum. 50 percent; Wednesday, high 45, low 27, hum. 65 percent.

The year just past was drier than usual. In his official weather recorder's rain gauge on South Trade Street in Tryon, Robert Dedmond measured 60.55 inches of rain in 1991, 4.28 inches short of the average annual rainfall. In 1990, the year ended with an 8-inch surplus over the average. In December, 4.17 inches of rain fell, .99 inches short of the average for the month.

Doreen Janicki measured 74.49 inches of rain last year in her gauge up on Melrose. "74.49 plus," she said. "The six inch rain gauge overflowed on July 29, in a two-hour period," and the full amount of rain that day was not recorded.

Temperatures in December ranged from a high of 72 degrees (Cream Atlanta. Send

Dr. Eugene Windsor

New Teacher At Discovery House

Dr. Eugene Windsor, a former assistant professor of music at the University of Arkansas and Odessa College in Texas, has joined the faculty of Discovery House of the Arts, Inc. to teach voice on Thursdays and Fridays. He will offer piano lessons on Saturday mornings.

A graduate of Stanford University with a B.A. degree in English, Dr. Windsor earned an M.A. degree in English at the University of Missouri at Kansas City, and a Doctorate of Musical Arts degree at North Texas University. He has studied voice and piano extensively and is trained in operatic singing, acting, and staging.

Dr. Windsor has sung leading roles in Rodgers and Hammer-

Porcelain Sculpture Class

The Tryon Painters and Sculptors will present a new sculpture class taught by Mary Schweder who owns the Trade Street Gallery. Mary is a very well known sculptor in porcelain and she has consented to teach porcelain sculpture on Tuesday morning from 9 to 12, starting Jan. 14 in Studio II which is in the Farwell Annex next door to the Fine Arts Center. This class will last eight weeks.

Ms. Schweder is known particularly for her porcelain sculpture of everyday objects we see around the house. She has created delicately beautiful bags, ballet slippers, golf shoes, hats, gloves, and even a typewriter - all in porcelain. There is a particular charm when one sees a recognizable object made out of another material but yet it looks very natural.

Mary will teach how to work with porcelain and you will create your own object under her guidance. Check your schedule and if you have three hours Tuesday mornings, pre-register with Pat Hunter by calling 859-9755. Patti Palmer will continue to teach ceramic clay sculpture on Wednesday mornings, starting Jan. 15, and you may get more information on that by calling Pat Hunter.
