When students in Bill Miller's Government and Economics class at Tryon High School speak, wise investors listen. These whippersnappers just snapped up a \$40,000 gain in the stock market, unfortunately only with "simulated" transactions.

The stock market team was given an imaginary \$100,000 and ten weeks to make as much money as possible using the numbers on the Big Board. The Tryon High students outperformed the next best team in the state by \$9,000.

Congratulations to student stock analysts and state champions Lindsay Killough, Matthew Jopp and Jessica Pace.
