THE

# A Business Story Rich in meaning to every motor car buver

How Studebaker reached the heights

HE story of Studebaker has been told by many men in many ways. Now let us tell it to you.

Studebaker growth has in late years been Motordom's sensation. Sales have mounted until last year 145,000 buyers of quality cars selected Studebakers. They paid over \$200,000,000 for them.

All must realize that a new situation has arisen in high-grade cars. You who are interested should now analyze the reasons.

#### 72-year traditions

The Studebaker principles have become traditions in their 72 years of existence. They have never

wavered. In all changing conditions they have brought new luster to that name.

Men come and go, but a name like this becomes a heritage to foster and enhance. That's what we've done - we who have that name in keeping for a time.

\* \* \*

Studebaker has always been a leader. For two generations it led in horsedrawn vehicles, now products of the past.

Most of you remember Studebaker carriages queens of their time. They were used by multitudes of people who loved quality and style.

When motor cars succeeded them, Studebaker became the logical leader in that field. Any other place would have been an anomaly.

The only way to the top A concern of this age has one fact ingrafted in its fiber. The only way to leadership is through superservice.

The leader must excel in all you

What others say - not what you say - determines your place in the long run. In every field of endeavor one must accept that fact.

We had the money, the plants, the prestige. We had the incentive of Studebaker traditions. In time we secured the men.

We told those men to build for us the utmost in fine motor cars, regardless of all costs. We pledged them our good faith and our resources.

#### The cost was \$50,000,000

We built new factories - modern plants. We fitted them with new equipment - 12,500 up-to-date ma-

#### Find Out Why

People paid over \$200,000,000 last year for Studebaker cars.

The result is now a demand for 150,000 per year.

Over \$50,000,000 in modern plants and equipment to build the finest of fine cars.

One of these cars, built in 1918, has run 475,000 miles. That means 80 years of ordinary service. In December this car made the trip from coast to coast.

> chines. Of the \$50,000,000 in our plants and equipment, \$32,000,000 has been invested in the past five years. So it represents the last word i.) efficient manufacture.

> We established a Department of Methods and Standards, to fix for every Studebaker detail the maximum of quality.

We created a Bureau of Research and Experiment, employing 125 skilled men. They make \$00,000 tests pur year to maintain our supremacy. They fixed countless standards, including 25 separate formulas for steels. Then on the most important steels we offered makers a bonus of 15% to conform to those standards exactly.

We invested \$8,000,000 in a drop forge plant to make all our own drop forgings. \$10,000,000 in body plants, to build all bodies to our standards.

We employed 1,200 skilled inspectors to see that all standards were fulfilled. There are 30,000 inspections on Studebaker cars during manufacture, before they go out from the factory.

#### That's the whole story

That's about the whole story. We simply followed the never-changing Studebaker principles. We gave to our buyers the utmost-values they

could not match. Then they turned by tens of thousands to Studebaker cars.

Over 750,000 of those cars have gone out. Their performance has developed a demand for 150,000 per year.

Every increase in sales brought a lowered cost, which we promptly gave our buyers. Today these fine cars are offering values which no rival can approach. They have made us the world's largest builders of quality cars.

#### We deserve a hearing

Now we deserve a hearing. All who consider a car at \$1,000 or over should learn what Studebaker offers. That in fairness to yourself and us. Check one by one the advantages we offer. You'll find them by the score.

Remember that 145.000 who did that last year chose a Studebaker car. There are nine chances in ten that you'll do it.

Consider our record, our accomplishments, our policies and principles. Consider that we have \$90,-000,000 at stake on satisfying men like you. Don't buy a car in this high-grade class without seeing what we give.

### and of Columbus County:

Just a word to say that everyone in Wilmington cordially and sincerely invites you "to come see us" whenever you will. We prize your friendship and through any service we may render you in 1924, hope to further cement same.

When here, make our rooms your headquarters. We will be delighted for you to use our telephones, to come in and write letters, or to have your packages sent for safe-keeping until you may be ready to return home.

In all friendship, we are, yours for service,
