Folks, my business here is to SELL out this entire stock. In all my many years' experience in selling out stocks I well know that prices and cheap prices is what it takes to sell it. Keeping this well in mind and having no limit as how deep to cut. I make it a rule to cut to the bottom. I have slashed price lower than you ever thought possible for quality merchandise. Folks, I have done my duty in marking down this stock, so it will be entirely closed out, the rest is up to you. Come, hitch your \$\$ to the biggest bargain values they ever pulled.
