The Three Fire Lines

Fires can be prevented, and Fire Prevention Week is intended to drive this fact to the general public. It is the rallying time to strengthen our three lines are: the first line, not allowing fires to start; the second line, minimizing combustible material and making construction such that if fire does start it can spread; the third line, extinguishing fires after they have assumed serious proportions. It is dangerous tactics to rely solely upon our third and last line. but that is what we have been doing, with grievous results. Let us drive the enemy, fire, back! to where he belongs, well beyond our front line trenches! And let us strengthen and maintain all three lines, not only for Fire Prevention Week, but for 52 weeks in the year. What To Do

Get in touch with your local committee-there is work for all, and your help is needed. The committce can tell you just where your efforts will be most effective. If no local committee is organized, write to T. Alfred Fleming, chairman N. F. P. A. Committee on Fire Prevention Week, 76 William street, New York, or to the Executive office of the National Fire Protection Association, 40 Central St., Boston.

A MAN'S JOB

A man's job is his best friend. It lothes and teeds his wife and children, pays the rent, and supplies them with the wherewithall to develop and become cultivated. The least a man can do in return is to love his job. A man's job is grateful It is like a little garden that thrives on love. It will one day flower into fruit worth while, for him and his family. If you ask any successful man the reason for his making good, he will tell you he likes his work; indeed he loves it. His whole heart and soul are wrapped up in it. His whole physicial and mental energies are focused on it. He walks his work, he talks his work, he is entirely inseparable from his work, and that is the way every man worth

CORN LAND FOR SALE

Four Hundred and Fifty Acres of the Best Grade, Fertile, Black Swamp ==Land in Lyon Swamp====

No fertilizer necessary. The place is well drained by a large drainage canal that passes thru the center of it and furnishes an excellent outlet for lateral drains. All drainage taxes have been paid. There are about 350 acres cleared and enough timber on the other 100 acres to care for the needs of the place. A good home and large store, several tenant houses and outbuildings. With a small cash payment we will give 10 years in which to pay the balance. This place was listed for taxes at \$50 per acre, but can be bought much cheaper. Consolidated school bus passes by this property. If you are interested in buying or renting such a farm,
