Quick Way To Break Heavy Cough

Many have been astonished how quickly a bad cough disappears when treated with a new doubleaction treatment that is simple but

wonderfully effective.

Here is the method, which is based on a remarkable prescription known as Dr. King's New Discovery for Coughs: You simply take one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowfor 15 or 20 seconds before swallowing, without following with water. The prescription has a double action. It not only soothes and heals soreness and inflammation, but also loosens and removes the phlegm and congestion which are the direct cause is removed, the severest cough quickly disappears.

This treatment is for coughs, chest colds, tickling, sore throat, hoarseness, bronchitis, spasmodic croup, etc. Recommended for children as well as grown folks-no narcotics or opiates. Economical, too, as the dose is only one teaspoonful. At all good druggists.
