Hence the generality of newly discovered medicines have but an ephemeral existence—their reputation goes up like a rocket. a d down like the stick - and hence the reputation and the raie of my pills continue to increase, for whoever pur-chases them once, and gives them a fair trial, is sure to ratronize them for life. I need scarcely observe that nine in ten of all the regular physicians in the United States office my I ills in their teneral practice, as this fact is uni-

The wide spread celebrity of this wonder'ul and inertimable cordial in both hemispheres is a sufficient guarar-tee for its quick and positive success in curing sir t. e-above affections and complaints. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude l'efore taking it, at once become robust and full of energy under its in-fluen e.
