VERTICAL WATER WHEEL.

I's consequence of the very great popularity which these Wheels have attained by the use of nearly 4000 of them in different parts of the country, the

Subscribers have sold about 100 Rights in North Car-

olina, 30 of which are in full and successful operation

in Comberland County. When properly introduced, they nearly double the value of the Mill, and in quint-

tity of work generally, far exceed the most sanguine

expectations of the owners, many of whom are gen-tlemen distinguished for their science and practical

skill, who have attested to the value of this improve-

ment. The Wheels are more durable, and more easily kept in order, whon properly put together, than the common Flutter Wheel. They will save one-third of

the water, and run well in back water when there is a

head above. The speed of the saw is increased to
