May 11.

Dr. B. MUNSEY,
Surgical and Mechanical Dentist.
Wilmington and vicinity, that he has taken a Room at Landon's building, Front Street, East side, No. 5, where he is prepared to perform all operations pertaining to his profession in the most approved modern and scientific manner, which for utility and beauty he will warrant not to be excelled by any in the practice of his art.

INSERTING, FILLING, CLEANSING,
Replacing, Extracting, &c.
It will be the best of Mineral or Porcelain Teeth with Gold or Silver, which will be closely resemble those of Nature, that the most practiced eye will be unable to detect them.

Filling Teeth this day has exposed the nerve, some of the most valuable operations belonging to the Dentist. When properly and skillfully performed, it not only restores the tooth to its former beauty, but also restores the patient to his occupation in Surgery, in a more comfortable and satisfactory manner, and without any possible injury to the enamel and entire restoration to the original health and brilliancy.

Chasing of Teeth for a very destructive calculus, and other corroding agents, is emphasized, and the patient is preserved these corroding and leaching organs. This may be done without any possible injury to the enamel and entire restoration to the original health and brilliancy.

Dr. M. will be happy to wait upon all requiring his professional services, and to impart any information which they require pertaining to his profession. Also, the doctor uses the Murch and Gums. At the same time, he assures the public that he has no misdeeds, and that the best material which dental science has produced, specimens and recommendations at the office if requested. Call and see.
April 20.
