process, which enables the inventor to extract the essential virtue of each particular article that enters into its composition, and reject those which are valucless or injurious, for it is an undoubted fact, though known only to few, that every vegetable production is more or less infested by extraneous substances which contravene its medicinal effects. Hence arises the necessity of a nice discrimination in the selection of our remedies. The slightest error in this particular might serve to prolong our misery, and shorten the duration of our existence. Then do not hesitate to choose the Clickener Sugar Coated Vegevable Pill, because you are certain of a remedy which

will not injure you. If it does not cure. GIPPITT & WILLKINGS, Front-street, between Market and Dock streets, are the Agents for Clickenr's Pills for Wilmington.

DIED.

In Duplin couuty, on the 18th Inst., Col. James K Hill, in the 66th year of his age. In the death of this gentleman, a vacuum hath been created which at will be very difficult to fill. Indeed, his history is one of rare occurrence. Before he had fully arrived to manhood he offered his services to his country in the Camp, and continued in the army during the war of 1812 to 18.4. On his return to his native country, he engaged in business to provide for old age, and in 1836 was elected Sheriff of the county which office he satisfact orily retained for the space of 9 years ; afterwards he was made Chairman of the county Court; and then the people, (not willing that his usefulness should be confined to such small matters) called him to a seat in the Legislature of the State, which situation he has occupied a number of years in the best credible manner. He was the Senator elect from the county this year, but alas ! he will not legislate. Col. Hill was distinguished for his gentlemanly deportment, fair dealing, kind and hospitable manner in all the various departments in society, the loss is such that none but God can sup-Com.

At Masonbero' Sound, In this county, on Monday. Josephine, daughter of Mr. Parker Quince, uged 5 YCars.

(Per the Cambria.) The sales for the week ended this evening amount to 31.800 bales, of which 2.800 have been 50 taken on speculation and 3,700 for export; and the American descriptions consist of 7,530 Uplands at 34 a 41, 15,790 Orleans at 3 a 51, 2,470 Alabama and Mobile at 34 a 44, and 200 S a Island at 74 a f3d per lb. The prospects of the approaching harvest have not varied since our last, and the weather continues only moderately favorable for tipening the crops. Nearly every thing depends on the weather for a few weeks to come. With regard to the important ques-
