

The Ohio State Journal gives the following account of a conversation held with some returned soldiers. Said the editor: "Well, you all go for Cass for President, don't you?" "Why—not exactly," said the soldiers. "Cass, sir," said we, "is the soldier's friend."

THE COMMERCIAL.

WILMINGTON, N. C.

THURSDAY, OCTOBER 19, 1848.

FOR PRESIDENT,
GEN. ZACHARY TAYLOR,
OF LOUISIANA.
FOR VICE PRESIDENT,
MILLARD FILLMORE,
OF NEW YORK.

Election on Tuesday the 7th of November.

WHIG ELECTORAL TICKET.

District No. 1. Hon. Kenneth Rayner,
" 2. Hon Edward Stanly,
" 3. Henry W. Miller, Esq.,
" 4. Hon. W. H. Washington,
" 5. George Davis, Esq.,
" 6. John Winslow, Esq.,
" 7. John Kerr, Esq.,
" 8. Rowley Galloway, Esq.,
" 9. J. W. Osborne, Esq.,
" 10. Todd R. Caldwell,
" 11. John Baxter, Esq.

TO CORRESPONDENTS.

We regret that the Communication relative to the doings of the Mass Meeting, at Warsaw, came too late for this number. It will appear on Saturday.

ROUGH AND READY CLUB.

We are authorized to announce, that a meeting of the Rough and Ready Club, will be held at Masonic Hall, this evening, at seven o'clock. First rate Songs and Speeches may be expected.

NEW PAPER.

We have received the first number of a neat whig paper, entitled the *Smithfield Telegraph*. It is published weekly, in Smithfield, Johnston county, in this State, by Messrs WESLEY, F. S. ALSTON & WILL. H. CAMPBELL, at two dollars per annum, in advance. It bids fair to be a good paper.

FIRE IN SMITHFIELD.

We learn from the *Telegraph* of the 14th inst. that the steam saw mill of Messrs Telfair and Avery, in Smithfield, was destroyed by fire a few nights ago. It will be immediately rebuilt.

READING ROOM.

The third subscription year of this Establishment commences on the first of November, 1848. We bespeak for it the patronage of the community, because of its importance in many respects to the people here, as well as of its convenience to strangers who visit our place.

It is impossible to sustain a Reading Room of this style and character, unless connected with a Periodical publication, our citizens will see the advantage of its continuance in its present position. Though connected with *The Commercial*, it is not a political Reading Room; and this avowal from us will be satisfactory to every man of honor who reads it. Some of its most punctual and warm supporters are gentlemen of the democratic party.

We have had an opportunity of learning the opinions of intelligent travellers and gentlemen of this place, who are acquainted with subject—and all agree, that few, if any, Reading Rooms south of the Potomac, are equal to it, in all the requisites of such an establishment.

Terms are \$10 per annum, with the privilege of inviting transient persons; and \$5 per month for personal privileges only. For periods the charge is a little higher, per cent than the division of the above sums be. We are greatly obliged to those who continue, if they will give us an indication of their intentions as they can do. Of course, its continuance depends on the will of our citizens, as it may be by their subscriptions.

It is proper here to state, that the subscription is kept up through the aid of ten gentlemen who contributed largely the first year. These gentlemen having done liberally, ought not to be asked to contribute more than the annual subscription price, which they are willing to do. We hope the public will give us their attention required in its supervision.

STILL CHEERING!

The news from the elections in Pennsylvania and Ohio, are still cheering to the Whigs. In the latter State things look better and better.

The latest accounts from Ohio assure us that the Whigs have elected a majority of the members of the Legislature—there being a tie in the Senate and a Whig majority of four in the House of Representatives.

All the returns are not yet in from Pennsylvania. The correction of the returns, to correspond with the official reports, has somewhat reduced Gov. JOHNSON'S majority; but there is no probability of its being less than 1,500.

Beware of Democratic reports of these elections. Rumors are circulated to keep up the spirits of the discomfited democracy, having no foundation in truth.

FLORIDA ELECTIONS.

The Tallahassee *Sentinel* of the 10th inst., contains returns from most of the counties, and expresses the opinion that the ultimate result will be 600 majority for Brown, the Whig candidate for Governor, and 700 for CABELL (Whig.) for Congress.

The Legislature will undoubtedly be Whig by some ten or fifteen on joint ballot.—*Courier.*

BUSINESS MEN.

The deep interest that business men have in the result of the approaching Presidential Election, is well portrayed in a few words by the *New York Express*: "We apprehend that the business classes of society are not yet sufficiently awake to the way in which this election touches their interests. We fear they do not yet sufficiently portray the dangers involved in the election of Cass, and conquest. One war, unprofitable enough, we have had under the demagogue Polk.—How many we may have under the spirit which would elect Cass, who can foresee, or foretell? We think that Merchants, Traders and Farmers are not yet wide awake enough to the importance of opening the way of our great Western Lakes and Rivers for all the outlets and inlets of commerce. They do not remember always, that Polk has stopped all Internal Improvements by the Federal Government, in the face of all the precedents of preceding Presidents,—and that Cass is pledged to follow in his footsteps. They may just now, here in New York, under a severe pressure in the money market, ponder enough upon the mischiefs, corruptions and perils of the Sub-Treasury act,—but do they think enough of the dangers of excessive importations? Do they see how the manufacturing interests are depressed? Are they aware of the consequences of buying from Europe more than Europe will take from us? These are all great business questions, for business men to settle:—and in less than a month, the policy of the government is to be fixed for four years, and it may be for twenty."

A FLOURISH!

At a late Cass and Butler meeting in St. Peter's Parish, S. C. a furious Preamble was adopted, with Resolutions, of the character of which the reader may judge from the following paragraph which we select from the Preamble: "Upon the adoption of the Wilmot proviso and the rejection of the Missouri compromise by Congress, we have but little to say, for the proper forum for its debate is the field of battle, where our muskets can be the orators, powder and ball the argument." This sort of language is at no season calculated to add to the respectability of our neighbors—and at the present time will be likely to create emotions of contempt and scorn—for those, we mean, who use it—not for the people of South Carolina.

Here are men advocating the election of Cass and BUTLER, who are pledged against the Missouri Compromise and in favor of the Wilmot Proviso; who have the impudence to talk about "powder and ball" to be used against the very doctrines they are upholding. General Cass' election, especially, would be considered an approval of the administration of Mr. Polk. Mr. Polk has signed a bill which adopts the Wilmot Proviso and rejects the Missouri Compromise, while he and his party, insist that the Veto may be used on all occasions. Polk pledged himself to the Baltimore Convention to the support of Cass—in political sentiments they agree, and Cass is pledged to follow in his footsteps—and yet in the face of all these facts, these singular sentiments are expressed; this absurd bravado is used—for what we hardly know. They have not duly estimated the character of their fellow citizens, if they suppose that they are to be frightened into measures by the threats of "powder and ball" from the "Quatlebams" be their number more or less. We do hope, in the name of decency and propriety, that our South Carolina friends will put forth no more of this foolish, frothy nonsense.

PALMER'S ALMANAC.

V. B. PALMER, of New York, has issued a very useful work, under the title of "V. B. Palmer's Business Men's Almanac for 1849." The table of contents embraces articles on the Tariff, Money and Exchanges, The Coal Trade, Inland Commerce, The Post-Office, The Patent Laws, Weights and Measures

Finance, Partnership, The Iron Trade, Rail Roads, Population, Immigration, Rules for Business Men, Wages and Hours of Labor, Tonnage and shipping, Mechanical Inventions, Lake and River Navigation, Routes and Distances, The Electric Telegraph, The Newspaper Press, Systematic Advertising. The Almanac contains 64 double-column pages, of fine, but new and fair type, and embraces more than an ordinary 12 mo. of 300 pages. It will be delivered to the Trade at \$7 per hundred, or \$65 per thousand.—Terms, cash on delivery. Tribune Buildings, New York.

A MODERN DEMOCRAT.

We wish to introduce our readers to a democrat of the modern school—a democrat who professes to love "liberty and equality"—Who is a great advocate for republican simplicity, and talks a great deal about "plain honest farmers and mechanics, &c." This democrat is THOMAS RITCHIE, Editor of the *Union*. We give the following description of his life and manners as shown forth in the *Battery*. Every one who knows anything about Ritchie, and his aristocratic notions, will know that it is true to the life: "Mr. RITCHIE, for sitting in his magnificent apartments, taking his daily ride to the Capitol in his own carriage, with his own equipage, lounging on the Senate settees in his well-brushed, brass-buttoned coat, white vest, and unsold white kid gloves, (a fresh turn out every day,) figuring about and dancing himself off his legs at the splendid assemblies at Jackson Hall, and at the magnificent entertainments of the Heads of Departments and the foreign Ministers—feasting at the luxurious dinners of the French, English and Russian Embassadors—for running this round of rank through elegant dissipation, and writing an occasional paragraph, laudatory of Mr. Polk, in the columns of the *Union*, this THOMAS RITCHIE, in a single Congress, fingered some \$277,468 82 OF THE PEOPLE'S MONEY."

Democrats, don't you admire the republican simplicity of your leading Editor? Of course you do; or else you would not uphold him in his ways. And now let us introduce a democrat of the ancient school; a Jeffersonian democratic republican. We are indebted to the same paper for this illustration, also. While RITCHIE was acting the magnificent, in the way above described, "one old ZACHARY TAYLOR was winning immortal honors by his splendid achievements in the service of his country. Under the burning suns and the pestilential moonlight of Mexico, he was bearing our flag in triumph through the veteran legions of ANASTA, planting it on the towers of Monterey and the ridges of Buena Vista—sharing all the while the toils, the privations, the perils of his humblest soldiers—and finally dispersing, with a handful of raw recruits, the disciplined and uncounted hosts of SANTA ANNA. And all this, the sleek and pampered minion of official patronage, fattening on his \$277,468, thinks OVERPAID BY THE EMOLUMENTS OF A MAJOR GENERAL!

Let us see how the accounts stand: Ritchie & Heiss, \$277,468 00 Zachary Taylor, \$7,395 90

The brave old soldier and patriot is abused by RITCHIE, because he receives the amount paid opposite to his name above, which includes his horses and travelling expenses and support of his family. He receives the lawful emoluments of a Major General, and not a cent more. But CASS may get his tens of thousands of extra pay, and this Editor sustains him in it. Ritchie helps himself to a fortune, in one session, out of the public Treasury, and would deny the honest soldier and patriot the pay that a law of Congress allows him.

A FORTUNATE STATE.

The State of Pennsylvania is very fortunate, as appears from a late number of the *Washington Union*. Mr. RITCHIE says "we can never give up the old and faithful *Key Stone of Democracy*, until she places the seal upon her own destiny." It thus appears that Pennsylvania is happily permitted to vote as she pleases. The Club at Washington are so much in the habit of commanding, that they have no idea that a sovereign State can vote contrary to the will of the Federal Despot without permission. Much obliged to you Father RITCHIE. "The *Key Stone of Democracy*" has certainly drawn itself out of that Arch, and placed itself in the support of the pillars of Liberty and the Constitution.

Mr. RITCHIE says that the free soilers, abolitionists, &c., united on the Whig Ticket at the recent election in Pennsylvania. This is a falsehood, invented by RITCHIE, to keep up the drooping spirits of his party. There is no foundation whatever for this assertion. Mr. RITCHIE, says the Democrats excel the Whigs in the purity of their principles. Alas! What sort of principles? We believe the *Richmond Whig* has hit upon the kind of principles the Union alludes to, when it says: "We know of no Whig who has 277,000 annual principles to stimulate him to action." Nor does any one else—there is no Whig that can boast of the admirable purity that is implied in telling lies for two hundred and seventy-seven thousand dollars per annum.

FOR THE COMMERCIAL. Permit a subscriber to call the attention of the public, to the advertisement of Monsieur BOSSIEUX, Monsieur B. is a dancing teacher and wishes to form a class in Wilmington; he is a very clever gentleman, and has devoted some time to the studies and instructions of the art he professes, and is a very competent teacher: Certainly it is not necessary to impress any one of the importance of dancing, in the improvement of the manners of young persons, and preparing them for an easy deportment in society. Those, then, who are willing to receive lessons in this elegant art, will do well to call on Mons. BOSSIEUX.

LATER FROM HAYTI.—We have received a file of Port au Prince papers to the 17th ult. The recent attempts at insurrection, in various parts of the Island, having been effectually suppressed, and no apprehension existing of a renewal of political disturbances, the government had seized the occasion of the prevailing tranquility, to exercise its clemency by remitting the penalty of death incurred by several individuals recently convicted of treason, and it was expected that the public security would be speedily so firmly established as to admit of their unconditional liberation. This clemency on the part of the government was received with every demonstration of gratitude and approval by the inhabitants of Port au Prince. The journals contain no other domestic intelligence.

DANIEL WEBSTER ON ABOLITION.—Hon. Daniel Webster said in a late speech: "I say that all agitations and attempt to disturb the relations between master and slave, by persons not living in the slave States, are unconstitutional in their spirit, and, in my opinion, productive of nothing but evil and mischief. I countenance none of them. The manner in which the government of those States where slavery exists are to regulate it, is for their own consideration under their responsibility to their constituents, to the general laws of propriety, humanity and justice, and to God. Associations formed elsewhere, springing from a feeling of humanity, or any other cause, have nothing whatever to do with it. They have never received any encouragement from me, and they never will. In my opinion, they have done nothing but to delay and defeat their own professed objects."

"MIKE WALSH."—This celebrated man, whose native abilities are of a high order, and who, though twice elected to the New York Legislature, has long been known as a rowdy and bully—a b'oy of the first water—was recently converted, and it is said intends to attach himself to the ministry. At present he is lecturing on temperance. Having forsaken his cups, he now wears a broad brimmed hat, a snuff colored coat and a white neck-tie.—[*Blackstone Chronicle.*]

We copy the following from the Albany Atlas:

POLK'S GENERALS. Pillow dug on the inside his ditch, And Cushing fell down with a bump; Marey got a bad rent in his breeches, And Cass run his sword in a stump!

DR. WISTAR'S BALSAM OF WILD CHERRY.

Is a chemical extract of Wild Cherry and Tar.—Every body knows that Wild Cherry possesses important medicinal properties; and Tar Water has always been administered in Consumption, and Lung affections generally, by our oldest and safest physicians. Various remedies, it is true have been offered and puffed into notice for the cure of diseases of the lungs, and some have been found no doubt very useful, but all of that have been discovered, it is admitted by physicians, and all who have witnessed its effects, that none has proved as successful as this. For Asthma Shortness of Breath, and similar affections, it may be pronounced a positive cure. It has cured Asthma in many cases of ten and twenty years standing, after physicians had declared the case beyond the reach of medicine.

This Balsam is made from materials which Nature has placed in all northern latitudes, as an antidote for diseases caused by cold climates.

"Nature is but the name for an effect Whose cause is God."

Let us not neglect her plainest dictates. None genuine unless signed I, "BUTTS" on the wrapper.

For sale, wholesale and retail, by WM. SHAW Druggist, Wilmington, N. C., and by dealers in Medicines generally throughout the United States.

A fresh supply of the celebrated WRIGHT'S INDIAN VEGETABLE PILLS, has been just received, and is for sale by Geo. R. FRENCH, Market street, Wilmington, and by Agents through the State. This is no catch-penny "quack" medicine, as those who readily acknowledge who have used it during the past year. It is a medicine compounded upon scientific principles from purely vegetable materials.

Persons who have been deceived with respect to other articles, and are disposed to condemn as bad all advertised medicines, would do well to suspend judgment until they have made trial of these Pills. Physicians and Druggists supplied at reasonable rates. See advertisement in another column. 80-Im c. Sept. 21, 1848.

CLICKENER'S SUGAR-COATED PURGATIVE PILLS.—Come on, all ye who so abhorred physic that ye suffered all manner of diseases rather than take it, and unite in erecting a testimonial to Dr. Clickener, who has just invented a pill, which has no taste but that of pure sugar, and which, without griping or nausea, will make your system as clear as a tumbler of the purest Croton, and as sound as the Jackson currency. We may christen Clickener the Great Unsickener. May he live a thousand years, which he is likely to do if he keeps himself under the protection of his own magnificent pills. We may add that Clickener's Sugar-coated Purgative Pills are the best general family medicine that has been ever introduced, for they have all the purifying advantages of physic, without any of those drawbacks which make physic such an aversion to most people.

WILLIAM H. LIPITT Front-street, between Market and Dock streets, is the Agent for Clickener's Pills for Wilmington.
