Resolution providing for the publication of an act passed at the present session of the General Assembly, entitled an act to

increase the Revenue of the State. Resolved, That the Public Treasurer be directed to have printed, on large sheets of paper, one thousand copies of the act passed at the present session of the General Assembly, entitled an act to increase the Revenue of the State; and that he distribute the same among the Sheriffs of the respective Counties of the State, in proportion to their size and population, to be put et the most public places for the inspection and information of the people; and that the expense of the same be defrayed from the Treasury.

Read three times and ratified in General Assembly, the 29th day of January,

WILLIAM HILL, A true copy Secretary of State.

VANKDE ENTERPRISE. - Lott Wheelweight. Esq., of South Boston, who was a passenger in the ship Duxbury, which sailed on Saturday, for San Francisco, carried out a little clipper "craft" of about ten tons burthen, all provided with sails, rigging, etc, and handsomely lettered on the stern, "Lone Star" of San Francisco, with a beautiful carved star for a figure head. We suppose Mr. Wheelwright will take out his papers for her, at the Custom House in the port of San Francisco, on arrival, and go up the Sacramento river, within gun-shot of the gold diggings. He will "astonish the natives" without doubt. Boston Traveller.

HORRIBLE MURDER-A DEMON WOMAN. A murder was committed a few weels rince, about four miles from Nicholasville, Kentucky, upon the person of W. Petter, by John Potter and wife. J. Potter is the brother of the deseased. The circumstances were as follows :- The two brothers John and Wil liam, together with John's wife, were at the house of Mrs. Elizabeth Burke, on Lee's Ferry road. They had all drank whiskey pretty freely, when a dispute arose between the two brothers. From words they proceeded to blows, and at this crisis the wife of John Potter made at William Potter and cut him with a broken caseknife two gashes in the face and forehead; kicked her. John Potter, having before this time darwn a dirkknife rushed upon William, who fled, and was pursued by John and wife, John, several nimes during the pursuit, was about to re-Rinquish it, but was urged on by his wife to "kill him." As the unfortunate man by this time had reached a fence, he was caught by the wife of John Potter, and held until John cut him a fearful gash about two inches above the wrist, laving bare the bone and severing the large arteries. A little while after this William expired. The husband and wife are now in jail, awaiting their trial before an examining court.

A MILLION OF DOLLARS STOLEN .- A heavy mail robbery was perprented on the Great Western Railway train between Liverpool and London on the 1st of January. The mail bags were in a tender in rear of the mail carriage, which was securely locked. On the stoppage of the train at Bristol, it was found that several of the mail bays had been cut and under the influence of a desire to be more closeopen, and others left with the seals broken .-On examination, it was found that the whole of the registered letters and banker's purcels had been abstracted.

On the downward passage of the same train on the same day, a robbery of a precisely similar character was effected; and as was supposed by the same parties. Several arrests of suspected persons had been made, and portions of the missing registered letters had been found with them. The whole amount stolen as nearly as can be ascertained was £200,000, or about a million of dollars .- Ib.

MURDERERS OF TWO YOUNG GIRLS .- A daughter of Mr. Joseph Turner, of South Convetry Conneticut, was murdered at the residence of her father, by an Irishman living with the family. She was about 18 years government. old. The Irishman was fond of eider, but Mr. T. had refused it to him. He asked the girl for some, and she refused it. He at once struck her with an axe killing her instantly. A reward of \$50 is offered for the arrest of the Irishman.

A shocking murder was committed in Uxbridge not long since. The circumstances were as follows: - A young man had invited a girl of about 11 years of age to ride with him a few weeks ago and she refused, he told Accordingly he went to her house at night, called her up stairs, and out her throat and then cut his own. The soung hady died namediately, but the man, not cutting his throat at the right point, d.d rot effect his purpose .-He is now in the hards of justice. - Ib.

The widow of the celebrated Dr. Rush is still living at the age of 90, in Philadelphia. She is the mother of Hon. Richard Rush. Minister to France, and of Drs. James and William Rush, the first of whom is author of one of the most profound and original treaties ever published on the Voice .- 1b.

MRS. MITCHEL, THE WIFE OF THE IRISH PATRIOT .- The total amount of subscriptions raised for the support of this unfortun tte lady, and the education of her children. so far, does not exceed £2 000; but an annual income of a fesser sum in freland, will place them beyond want during the banishment of their natural protector. Over £53 ham, of Dublin from Boston, in July last .- Ib

A VESSEL AND CREW LOST - The schr. "Swan" belonging to Messrs. John W. Jones, B. Bishop and Jesse S. Jones, of Worcester county, Md. with her crew, not having been heard of since she left the Inlet during Christmas week, bound for New York with cargo of grain, is supposed to have foundered at sea. It is stated she was last seen entering the Delaware Breakwater on Sunday after she put to sea, and has not been heard of since N. American.

Herr Stoepel, and Mad. Lovarny's Concert. We extract the following notice from the Rich-

mond Daily Whig: "We have seldom been more delighted by any public exhibition, than we were by the concert of these singers, at the Exchange Concert Room on Wednesday evening -They had been preceeded, it is true, by the most favorable reports, the entire Northern press, as well as that of both London and Paris, having united in their praise. Yet it is so seldom that any performance ever comes up to our previous conceptions, that we went prepared for a disappointment of a nature the opposite of that which we actually experienced. We are not skilled in the technical ties of the musical science, and can, therefore, only speak of what we ourselves felt, and of what the au lience appeared to us to feel.

Every piece which they attempted was executed, as we thought, in a style of superior elegence; and as they were all of such a character as to be understood and appreciated by any, the least cultivated car, they called forth, on each fresh occasion, a burst of heart-felt applause. Melslie, Lovarny, whose voice is one of great sweetness and compass, was compell ed, by the admiration of the audience, to repeat near-

ly all the picces in which she sang.

The most wonderful part of the whole performance however, and one which so nearly resembles magic, that it would have obtained for the performer, in the dark ages, the questionable honor of being reckoned a professor of the black art, was that of Herr Steepel upon the Xylo Chordeon. This instrument, as its name imports, is nothing more than a number of pieces of wood, connected at the ends by cat-gut or wire, and laid upon bundles of straw .- The performer had, in each hand, a key made of some substance which we took to be steel, and with whic't he struck the bars of wood, eliciting the most varied and extraordinary sounds, ranging, in volume, from the low notes of a large bell, to the highest key tone of the piano. Upon this primitive instument, Herr Stoepel contrived to execute, to the amazement and delight of the nudier ce, several difficult pieces, with the most perfect execution. The effect upon the audience was electrical, and when the performer had completed the first piece, the applause was so long and continued, that he was compelled to re-appear.-He did so, and struck up first the "Boatman's Dance," and then "Yankee Doodle."

All we can do is, to ask the music-loving people of our city to go and judge for themselves, as they will give a Concert this Evening at the Mozart Hall for which see advertisement.

FROM THE SENIOR EDITOR.

RALEIGH, Feb. 14, 1849. The liberal action of the Legislature, relative to internal improvements, has given animation to the feelings of the residents of the "beautiful city of Oaks." There appears to be but one sentiment in regard to the Central Road-but how far the approval will operate on the important matter of taking stock, remains to be seen. It is a scheme that ought to be talked of in no other way, than as one that must succeed; nor is there, at present, any strong opinion

adverse to such a result. The notion that there is a "Raleigh Clique," hostile to the advancement and prosperity of Wilmington, ought to be put to rest now and forever. There is no such "Clique;" on the contrary, Wilmington, her people, her enterprise and her public spirit, are universally spoken of in terms of commendation, ly uni ed with our citizens in interest and in social communion.

It is supposed that there exists a feeling of jealou sy on account of the aid the State has afforded the Wilmington interest, in the Wilmington and Weldon Road, as it is now called. This is a mistake; at least so far as any general opinion here is concerned -There may be here and there a croaker, but none o them are competent to influence the public mind .-It is not forgotten that the Legislature of 1833, passed several acts, proposing improvements to our citizens, and that the people along the line of our Road and the citizens of Wilmington, were the only persons who availed themselves of the opportunity afforded, and applied their money to the enterprise,-This, so far fr in giving a plea for withholding Legislative aid, is a commendation to the favor of the

The policy of the last Legislature was evidently characteristic of State enterprise, and a desire prevailed to foster some improvement that should operate within the borders of the State; the Central Road eminently sustains this policy. I do not believe that the Manchester Road was objected to, merely because it does not come within this category; but because the improvements had been necessarily carried to as great an extent as the public mindwould sanction at this time. But let the citizens of her he would pay her for it some future time. The lower action of the State, with their neighbors of South Carolina, lay their strength to the wheel, and "Hercules" will be at hand in season. I learn, incidentally, that Mr. HOLDEN has lost some subscribers to the Standard, in consequence of the ground he has assumed on the subject of Internal Improvements. He ought to publish their names, that respectable Editors of all parties may see that their List of subscribers is not disgraced by adding them to it. What do such Vandals as these know about a Newspaper, or how it ought to be conducted ? "Throw pearls before swine"-but never put a newspaper into the paws of such mooncalves as these. The custing vote of Mr. Speaker Gnavis of Caswell, on the passage of the Central Rail Road Bill, continues to be a theme of warm approbation and heart-felt applauss. He fitty represented Caswell. We know the people of that county well. Though they are "tirrible diammeetsla" (as a Scotch friend of ours once said of us)-they are highly intelligent; possessing great independence of character; generous, hospitable; social in their intercourse; and, on the whole, a fair sample of what patriotic republican citizens ought to be. We think such men cannot fail to sustain Mr. GRAVES, in the honorable and responsible stand he took in the last Legislature.

The gold-fever here is not in the ascendant. It is doubted very much if any combination will be formed, (as indicated some time ago) to make out an expedition from this city. It appears that there is a Protocol to the Mexican Treaty, which has been called for in the House of Representatives calculated, as rumor says, to do away with that Treaty-and this, as a correspondent of the New York Herald says, would give a large slice, if not the whole of the gold region, to Macnawars, the Itish Priest, who had contracted with Mexico to settle a colony of good Catholics in California, in order to prevent the country from being overrun by "Methodist Barbarians."-Mr. Polk will, no doubt, explain the Protocol, and the Correspondent's suggestions will prove a humbug as most of them do.

CONGRESSIONAL.

In the Senate, on the 15th, the Vice President laid before the Senate a report from the Commissioner of Patents, shewing the proceedings of the Patent-office during the past year, which was ordered to be print-

Also, a communication from the Treasury Department, with a statement of the amount expended for pay and rations of officers and men in the Naval establishment. Ordered to be printed.

A few memorials and petitions, and several private bills, reported from committees.

Mr. Atchison, from the committee on Indian affairs reported a joint resolution to pay to the Chippewa Indians, now on a visit to Washington on business with the government, \$3,000, for their expenses here and home again, which he moved to amend by striking out \$3,000 and inserting \$6,000. After an interes ing debate of about an hour, in which Messrs. Atchison, Yulee, Dodge, of Iowa, Butler, Jones, King, and Felch participated, the amendment was agreed to, and the resolution was passed.

On motion of Mr. Johnson, the bill to place of pension list the name of Mary E. Dix, widow of the late gallant Col. Dix, paymaster in the army, who died of cholera on his way from New Orleans to Washington, was taken up and a debate ensued, in which Messrs. Johnson, Jefferson Davis, Underwood, King, Walker, Hale, Benton, Metcalfe, Houston and Cameron participated. Mr. Cameron, finally moved to lay it on the table, which was decided in the affirmative-24 to 20-

Mr. King introduced a resolution of inquiry as to the expediency of making a grant of lands to the surviving officers, and widows of officers deceased, engaged in the war of 1812. Adopted.

The amendment of the House to the bill of the Senate "concerning testimony," was concerred in. Mr. Walker introduced a bill concerning public

lands lying between the meander line and the middle of the meandered streams. Read twice and referred. . The Senate then proceeded to the consideration of bills on the private calendar. Adjourned.

In the House, on the 15th, Mr. J. R. Ingersoll in troduced a resolution to pay the clerk and witnesses in the case of Judge Conckling. Passed.

A new rule, reported from the committee on rules, requiring that no part of the contingency fund, except for printing, shall be disposed of, until resolutions relating thereto shall be first submitted to the committee on accounts, was taken up, and finally laid on the table--88 to 79. A few unimportant bills on the Speaker's table

having been disposed of, a joint resolution author-

Mr. Rockwell's bill to establish a board of claims was rejected. After some other unimportant business, the House

adjourned.

In the Senate, on the 16th, after transacting the usual morning business, the Senate took up for consideration the resolution offered some days ago by Mr. Downs, that the Senate after this week should meet at 11 o'clock instead of at 12.- Several amendments were offered, and a long discussion ensued; when the whole subject was laid on the table.

Mr. Underwood offered a joint resolution, which they expect he will be influenced to recede from the lies over, providing for the purchase by the Governute due to the patriotic impulse that disowns the in near the city of Mexico for the interment of such American citizens who have fallen in battle or may

An item granting \$20,000 to aid the city of Washington, in deepening the branch of the Chesapeake and Ohio Canal from the corporate limits of George-town to the navy yard was inserted in the bill by a vote of 29 year to 18 nays.

After discussion on amendment, the Senate ad journed.

In the House, on the 16th, Mr. Jones, of Tenn., again asked leave to offer a bill (prepared by his colleague, Mr. Johnson, who is sick,) to make the soil free, or provide an inalienable home, by giving 160 acres to every poor man, the head of a family, a citizen of the United States, or to any mother with a family, 'without money or without price." Objection was made,

The bill making appropriations for the support of the Post Office Department was referred to the committee of the whole on the state of the Union.

The House then went into committee, (Mr. Cabell in the chair.) and took up the bill to provide for carrying into execution, in part, the twelfth article of the treaty with Mexico, concluded at Guadalupe Hidalgo, by payment of the instalment and interest which will fall due on the 30th of May, 1849, \$3,720, 000, and \$3,540 on the 30th of May, 1850.

Mr. Starkweather, of N. York, made a speech in favor of the principles of the Wilmot proviso, as applicable to the territory acquired from Mexico, and contended that the people had decided this question in the Presidential election.

Mr. Wilson, of N. H. said, in the course of his remarks, that he would not consent that a sixteenthpart of a hair of the tearitory should be devoted to slavery. He went for the Union, and never talked about dissolution. If the alternative were presented, to extend slavery or dissolve the Union, or the uni-

Mr. Bedinger, of Va., defended the South, and read from a pamphlet, a printed lecture, delivered by a gentleman in Ohlo, to show that there was less pauperism and crime in the slave States than in the free This showed that slavery was not such a curse as gentlemen described it.

The committee then rose, and the House adjourn-

The Railway Gazette has the following: We perceive that an association has been formed to work the gold mines of Wicklow and Wextord, as the discoveries in California have turned attention to gold seeking. It announced that more than twenty trials, during three months' labor, have proved that the auriterous deposit in Ireland occupies an area of apwards of one hundred square miles, in the counties of Wicklow and Wextord. The gold is found in in quartz and black iron sand, as on the Western coast of America; and it is said that by an improved method of working, sixteen men and women can wash one hundred tons sand a day, at an outlay of 12s. The maniging director of the association is Mr. Wm. R. Collet, who has taken a very active part in the extension of the railway system in Ireland.

THE ASTHMA CURABLE.—There is no dis ase more distressing than the Asthma, and there are but few who suffer with it who are acquainted with the proper method of cure. In fact, it is a complaint that for a long time baffled the skill of physicians, but deep research, and much study, has at last shown that it can now be classed as a curable disease. The symptoms of Asthma are straightness of the chest; languor; disinclination to motion; loss of appetite, wind in the bowels; weight over the eyes; nausen; headache. These, or some of them, mark the approach of the fit, which usually attacks its victim about the middle of the same night. Then there is a struggle for breath as if the patient were suffoca ting. Asthmatic persons will find in Clickener's Sugar Coated Vegetable Pills a certain remedy. These pills will, if taken in doses so as to operate gently upon the bowels medify the fits to which asthmatic persons are subject; and in time will so tone the system as to resist them altogether.

The pills, being composed of the finer and purer a permanent removal of this distressig disease, and of our acquaintance who have used the pills with

NEW ORLEANS MARKET.

Feb. 13. The week has commenced with quite arractive demand for Cotton, and as factors were inclined to meet it freely, the sales yesterday reached 16,000 bales, of which the largest portion was taken for the Continent of Europe, with a portion for England and the North. Prices were rather casier, but there has been no marked decline.

A heavy stock of Sugar having accumulated on the Levec in the past three days, a very general and brisk inquiry arose, and the rates were very large, amounting to 3000 hhds., taken for the North and West, at full prices-say 35 a 4c for good common to

fully fair. Of molasses, 1200 bb's, were disposed of at 201 a 211 ., the outside rate for prim .

There were scarcely any buyers of flour in the market, and only some 800 bbls. sold, viz: 149 bbls. Ohio at \$1,18, 350 do (in three lots) at \$4,35, 100 do, Illinois at \$4.50, and 100 do. extra Indiana at \$1.70 Sales of 400 sacks Whintat 80, and 150 do at 95c.

Very little done in Provisions, and no sales of Pork or Lard worth report. Of Beel, (O tierces prime mess brought \$15 per tierce, and 100 boxes Long Middles sold at 51c per lb. Salt in request, and 20,000 sacks Liverpool taken

per bushel.

viz: 6600 and 3330 sacks coarse, by one buyer at 75, 1428 do. at 75, and 6900 sacks (3000 course 2774 do. and 1100 fine) at 771c, round. Freights very firm. Four Brittish ships taken for Liverpool at id. for cotton, a brig for Baltimore at \$1,20 for Pork, and two barks to load on the coastone for Bultimore at \$6,25 for Sugar and \$2.00 for
