THE COMMERCIAL. WILMINGTON, N. C.

THURSDAY SEPTEMBER 20. 1849.

MEETING POSTPONED.

We are authorized to state, that the meeting of the citiziens, called by the Committee on the School Report (which was to have taken place yesterday) is properly cared for. postponed, on account of the inclemency of the weather, to Saturday, the 22d inst., at 9 o'clock A. M. at Masonic Hall.

RAIL ROAD IRON.

The American Rail Road Journal, of the 18th inst states that at least 100,000 tons of English railroad Iron have either been received or ordered for this country within the last twelve months, at a cost of about five millions of dollars. This resort to a foreign market for this important article, is very bed policy. The Journal says, to manufacture this guanity of Iron, would require about 17,000 workmenand making the usual allowance of five persons as dependant upon each one, we have a total population of eighty-five thousand persons who have been directly supported by the production of this enormous quantity of Iron. These eighty-five thousand persons in their turn give support to a great many thousands of farmers, mechanics and professional men, who are again enabled to contribute to each other's business.

We have said it is bad policy to resort to a foreign market in this case. But we suppose there is a necessity for it, as our people are unable to compete with the immense establishments and large capital of the English manufacturers. That all the benefits arising from this manufacture do not enure to our own people, instead of the subjects of Great Britain, is simply owing to the repeal of the tariff of 1942 No wonder the British House of Lords was in love with Mr. Secretary WALKER's Report; for in that was contained the doctrine consummated in this instance, of patronising foreign manufactures, and creating benefits for the subjects of a foreign power, in preference to our own citizens. Five millions a year, for one item, is a pretty snug sum to pay for electioneering hobbics, intended to accure the "spoils" of office.

THE RICHMOND REPUBLICAN.

We insert, in another column, the Prospectus of the paper under the above title. This is a paper of its feading matter, The paper is conducted by a man will sink up to his knees, and cattle cannot MCSSTS. OLIVER P. BALDWIN, and ROBERT M. GAL-LAHER, the latter of whom is Proprietor.

MADAME CATALINI.

Madame CATALINI, so well known as a singer, and so highly esteemed in the musical world, died recently of cholera. The power and sweetness of her voice, has not been surpassed. She realized a large fortune before she was thirty-five, and retired to Italy, and has not since appeared in public.

PASSION FOR OFFICE.

The desire for holding office has become a passion with a goodly portion of our citizens. This position has been strongly illustrated in the late union of the ranks of their opponents have ceased. The "principles" involved in them, which seemed as firm and as lofty as the rocky Alps, have yielded to the

acrid. gnaming., earnes ungendered. Free Sollism

SHOCKING.

The Cincinnati Chronicle tells a story of a blacksmith named Burland, in that city, who about eight years ago placed his wife in rigid and secret confinement in the upper part of his house, where she was deprived of all comforts, while the brute of a husband took a young girl to share his bed and board. The death of the tyrant a few days ago, brought the affair to light, and the unhappy woman has been

A REMINISCENCE OF CHICAGO.

In the year 1835, a gentleman called upon the

writer of this article and asked him to draw a deed of conveyance for two lots in Chicago. It was done, Chicago was then an outpost of the West. A small military station had been placed there, and our Indian agent's home was there.

The proprietor of the lots said they were two of the finest lots for stores in the new town which was to grow up there. They were sold for a very small sum to some merchant in Detroit. The inducement for the sale was that the merchant had promised to build warehouses upon them. We believe he did, and thus began the progress of

Chicago. In the year 1835 and '36 speculation, especially in Western lands, was carried on to an enormous extent. Several New York gentlemen of capital became interested in Chicago, and made great exertions for it. It was well situated, and has since grown rapidly. A day or two since we saw the census just taken of Chicago, 23,500 inhabitants The whole of this flourishing young city is the growth of fourteen years !- Cin. Allas.

FROM CALIFORNIA.

Further extracts from a Letter received by a gentleman in this town, dated.

SAN FRANCISCO, July 31, 1849. Schooners sell well, at present, to carry passengers nd baggage up the river, and I think they will sell well for 12 months to come for that purpose. As for steamboats, they might have to bring their fuel all with them; for there is nothing on this river but northern portion of California is inferior to New live oak and willow, and these do not extend very England in every respect, while the southern half of far back; not more than a quarter of a mile at farthest-the most of the river banks being swamp .-Fisher says he has some of the finest timber he ever saw or ever expects to see ; pine, cedar and oak ; some 9 feet through ; but it is up in the mountains, and no way to get it to market, for the streams, in the wet season, are torrents; and in the rest of the the first class, both in its mechanical execution and year, dry ravines, with here and there a mud-hole;

get along at all. Capt. Suter told we that, a year or two ago, he was caught up in the mountains, where his mills are, ty strong over the credulity of the public. when the rainy season came on, and he had to stay till it was over, for he could not travel at all. The

plains that I crossed in going to the mines are a clay chief, if not the only inducement to emigrate, is the soil, full of cracks from 1 to 3 inches wide and some gold. three feet deep. Fire wood is worth \$35 per cord at San Francisco.

had, and that is not in many places. So I cannot see what steamboats will do. As for gold, the whole earth is covered with it. When on the Yuba river, I went up to the top of the the two divisions of the democratic party. Of this hill on the side of the river, some 1,500 feet, with streams and in river beds by mountain torrents, and coalition the New York Enquirer says : "The whigs plates, and slid down, and took gold clay up in have a hard battle to fight this fall. The divisions in different spots, from the top to the bed of the riv. er, and in each plate found gold, some more and some less.

heated, and suddenly cooled, by pouring water on them, for they are cracked in many parts, in openings of one-eighth to one inch wide, and in pieces of the smallest to a very large size. These cracks are filled with clay, and in that clay is the gold-and there is no end to it. I had in my hand, the other little amused, at a colloquy held by a long, green day, a piece weighing two pounds; they say there Vankee with a machine similar to a common New the mighty meed of their large honors," gained in are pieces found weighing all the way up to 41 pounds; but I have not seen them. I saw two Germans, take out of the rocks 16 ounces in one day; and the same day, two others, who worked as hard if not harder than they did, got only a continental darn-you've turued out only a churn, \$4 worth. They were within ten feet of each other : so the work is a perfect lottery.

SPEECH FROM THE HON. HENRY CLAY.

Mr. Clay during his adjourn at Uties, visited the numerous manufacturing villages, at all of which he was heartily received, especially at Clayville-named after himself-where he was introduced to the sesembly with an address, to which he made the following reply, which we find in a letter to the Albany Evening Journal :

Fellow Citizens .- A lady friend extorted from me the dangerous promise that I would say a few words that of France. on this occasion. This is in violation of the rule of preserving silence to which I intend to adhere

would not meet with approbation. My life is rapidly drawing to a close, and remembrances of my political career are crowding upon source. me, to which I turn sometimes with pleasure, and

sometimes with regret. I look back with pleasure upon the history of that policy to which more than half my life has been devoted; a policy which has made your country independent of foreign nations, and sown the seeds in this valley which have grown

to the prosperity and happiness I see around me. If I could find any motive for departing from the rule of silence, except the obligation of a promise, It would be to bestow my warmest wishes upon a place upon which I have been honored by bestowing my humble name.

I tender my sincerest thanks to him who was instrumental in expressing so kind a remembrance and conferring upon me so grateful an honor. I devoutly hope that happiness will continue to encircle you, and that the choicest blessings of Di-

vine Providence will descend upon every inhabitant of this beautiful valley-of these fertile hills.

BOTH SIDES OF THE PICTURE. We have presented to us very different views of California, from the several writers from that region. A correspondent of the Baltimore Sun, says : "Do not advise a dog to come to California. The entire the same territory is baked and burned by a scathing, scorching sun, for nine months in the year without rain, or dews, and deluged during the other three '

We ought to take the representations of both parties, with some allowances. In so large a number of persons as that which comprise the California emigration, there must be varied fortunes, and the accounts they severally give are shaded or lightened according to the measure of success that falls to their lot. "Without rain or dews," is coming it pret-

We have no doubt, from what we can gather on the subject, that the climate is repulsive, and the

We doubt, very much, the judgment of those who assert there is "no end to the gold," that is, that it and \$18 up the river on the banks, where it can be will be forever found in its present profusion. From other accounts, as well as those given by the gentle man from whose letter we make extracts, we believe that gold has been thrown about promiscuously by volcanic power, and distributed along the margin of that the quantity cannot, therefore, be inexhaustible, as many suppose

The yield of gold has been entirely over-estimated, we have no doubt of that ; and it is very certain The work in the gold mines is of the hardest kind, that the not har distant when profits can only be

Correspondence of the Baltimore Son WASHINGTON, Sept. 17, 1849.

Differences Between this Government and France-Impertment Note from the French and due here on Thursday, was stolen entire some-Minister--His Recall Demanded by the where between Geneva, and this city. The robbers President-Notification that His Passports have not yet been detected, and none of the matter are Ready, &c.

Some allusion has been made by the "Republic" to existing differences between this government and

The public have supposed that the origin of the difficulty was in the reluctance of the French govthroughout the journey which I am now performing- ernment to receive Mr. Rives, on account of some I see so many ladies around me, that I am not so dispatches which Mr. Rives sent to our government well prepared as I should be for a tele-a-tele, with while he was formerly minister to France, and in reone to whom I might address something which gard to the treaty of indemnity. But I have reason to know that Mr. Rives, when he embarked for France, did not anticipate any difficulty from that

The difficulty has not arisen from that source

alone. But Mr. Poussin, the French Minister, addressed a note, on another subject, to Mr. Clayton, which was deemed very impertinent. The President directed, six weeks ago, that the offensive letter be sent to the Government of France, with a demand

that Mr. Poussin be "immediately or sooner," recalled The French Government did not notice the de-

mand-they have had time to do it, and have not done it. Our Government has, therefore, intimated to M. Poussin that his passports are ready for him.

SENTENCE OF THE LEHIGH RIOTERS. The rioters who stopped the Lehigh coal trade a few months ago, and interfered so materially with the interests of the State in its trade on the Delaware division, have had their trial at Easton, and those convicted sentenced as follows :----

Thomas Breisford fined \$500, and \$5000 to keep the peace for five years. Williamson Riddle and Henry Glessner, each to pay a fine of \$50 and \$250 surety to keep the peace for the term of five years. Benard Merwart, a fine of \$25, \$250 surety to keep the peace for the term of five years. Edward, a fine of \$20 and the costs of prosecution. Thos. Johnson, alies Rippy, to pay a fine of \$20 and costs of prosecution. Samuel Nixon, colored, sentenced to fifteen days' imprisonment. As the time is short, we presume he will remain. John Tirney plead guilty and was sent to the House of Refuge. John Kriss plead guilty to the charge of assisting his brother to escape from prison. Sentenced to three months' imprisonment and a fine of one dollar. On Monday night, two persons, one the last per-

son named above, made a hole in the prison wall and walked off .- Philadelphia Ledger 14th.

From Fort Laramie-Destructive Fire--Steamer Sunk.

Sr. Louis, Sept. 15-A. M. We have received later advices from Fort Laramie. Several companies of California emigrants passed the Fort on the 17th, and appeared in excellent spirits. They were getting along quite well. Grass was more plenty on the Plains. The two Indians who murdered Colbarn, a Santa Fe trader, have been imprisoned in this city to await a trial by the U. S. Circuit Court, to be held in April, A destructive fire occurred at Cape Girardian on the night of the 12th. The steamer Revenue Cutter was sunk on the Lower Rapids on Thursday last.

marine Attairs at Key West -- Murder on shipboard, &c.

CALL AND TRY BEFORE YOU BUY. THE SUBSCRIBER offers for sale, in his New Establishment of Family Gracerics and Provis-ions, the following articles which are no sold low wes, Phile of Suda, Water and Butter Crackers; Boxe of Soda Crackets; Colgate's best pale Soap; dles; Tobacco, several qualitics; Cheese, hest quali-ty; Pepper; Splee; Ginger, Cloves, Nutmegs, Cinnamon; Allum; Copperas; Salaratus; Epsom Salie; Indigo; Mrs. Miller's Snuff, in bladders and bottles; Pepper-Sauce; Mustard; Roll Brinistone; best Green see Flour, buls, and half bbls ; Rice; Molasses;

has disappeared-"corner stone" and all-and National Democracy is heard of no more. Both have been merged in a comprehensive, unscrupulous, recklessly ambitious, Abolition Coalition."

And with this " Abolition Coalltion" the Southern Democracy expects to go hand in hand, and to " sell their vindication of Southern rights, for the spoils of office. This they will do in the hope of breaking down the TAYLOR party, and building up an administration more pliant to their mercenary purposes .--Here is to be another betrayal of the South, an open, audacious desertion of Southern interests, for the sake of the money which office brings. A war, in league with this base coalition is to be waged upon a southern planter and slave-holder, that our very chivalric democracy may have the chance of bending the suppliant knee to power, for pay. The honest, upright, and sagacious patriot who now fills the Presidentia Chair, is to be denounced, and attempts made to fill his place by some charlatan, who will become the obsequious servant to eliques and clubs, formed for selfifth and ambitious purposes ...

The people of this Union cannot find in General TAYLOR any thing to justify the conduct of the Democratic Party, in the virulent and malignant calumny with which they assail him. Led on by the Washington Union, unsurpassed in perocious vulgarity and falsehood, the party presses will not cease to misrepresent every act of the present administration, and shamefully abuse the credulity of those citizens who rely on their truthfulness. No magnanimity on the part of the President, nor generous feelings on the part of the Whigs can soften the asperity of these assaults. The matter has been tested ; and we have seen that conciliation and kindness have been met with contumely. The Whigs should now look well to the union of their party, and preserve its strength, wherewith to bless our country.

POWDER MILL EXPLOSION. A cylinder mill, connected with Messre, Hammer & Forbes' powder works in East Hartford, was blown up on Thursday morning about 9 o'clock .--The mill contained about 60 kegs of powder at the time. One man, named John O' Brien waskilled,ry, in doing which the explosion was caused.

AN EASY RULE FOR FARMERS. A "quarter of wheat" is an English measure of eight standard bushels; so if you see that quoted at fifty-six shillings, it is seven shillings a bushel. A shilling is twenty-four cents-multiply by seven and you leave \$1 68 per bushel.

THRILLING SCENE.

A thrilling scene was witnessed in Baltimore, on him, Mr. Taylor and his children still being inside notified and the presentation came off to the evident It was dashed completely to pieces, and every one delight of the officers, who are said to have much adexpected that the inmates were killed. But fortunately neither of them received any serious injury and impressive christian benevolence of speech .-It was one of the most remarkable escapes on re. His Holiness stoke approvingly of the officers, and cord.

As for this "mild, pleasant climate," it is the worst one Providence ever made; morning and evening, cold, raw, damp; just as we have it when the wind has been N. E. for a day of two; only colder, and

from noon to midnight it blows a gale. All on the coast, the middle of the day hot, and hotter up in the mines; at night, cold and dry; on the coast, cold and damp and foggy. That is California you may depend upon it.

Visit of the Pope to the U. S. Frigate Constitution.

A correspondent of the Herald describes a visit that the Pope made, at Gaeta, to the U. S frigate Constitution

" Soon after the party of officers reached the Constitution, the batteries on shore and on board the ships in the bay, announced that his Holiness, the Pope, and his Majesty, the King of Naples, were afloat, and in a few minutes these distinguished monarchs reached the deck of the Constitution, and were received with salutes of twenty-one guns each ; the wards were manned, the marines presented arms, and the band played an appropriate air. The King inspected minutely every part of the ship, accompanied by a numerous and brilliant staff, and expressed himself in terms of high satisfaction.

"His Holiness was much pleased with the order and propriety that everywhere met his eye, The Catholics requested to be presented to the Pope, and the Captain ordered them to be formed into two have the third one fed through the winter. He was making some slight repairs of the machine giving them his blessing, and made a prayer to God for their salvation. The ceremony was grand and imposing."

> The El Napolino, of Naples, thus announces the arrival of the Constitution at Gaeta, and the visit of the officers to the King and the Pope, with the Hon. John Rowan on board :

" The Constitution arrived at Gaeta on the 1st of last month, and after firing a national salute, which was returned from the fort, Mr. Rowan took the officers on shore and presented them to the King, who Tuesday. Mr. Charles R. Taylor, the cashier of the received them most graciously, expressing himself Bank of Baltimore, was driving his two daughters gratified by the visit. On the following morning to school, when the vehicle came in contact with a His Holiness the Pope expressed to Mr. R his dedray and upset. The horse taking fright, started sire that the officers of the Constitution be likewise off at the top of his speed, carrying the vehicle with presented to him, and accordingly the officers were

> mired the Pope's simple and prepossessing manners, dismissed them with his blessing."

made by scientific machinery and large outlays of conital

The Sacramento Times relates an amusing anecdote of a ynnkee trick perpetrated on a Yankee, it says : "We were accidentally listeners and not a England churn, which he was examining minutely: "I bought you for a gold washer, and you are one of the washers. Here I've lugged and backed and packed you all through Mexico, and now you sin't worth ain't I a sweet-scented darn'd fool, ain't I I" Here, wrought into a passion and overcome by his feelings, he seized an axe and entirely demolished the churn,

casting the cog-wheel and crank nearly into the middle of the Sacramento.

Much disorder still prevails in the towns of California, though there is some improvement in this regard. Life and property are both still unsafe in these mongrel congregations. Order and quiet are preserved at the mines, if we may believe the general statements in this respect. One reason of this

is, that the miners are constantly employed; and another is found in the character of the population, a large portion of whom are Am ricans of integrity, and of industrious habits. If not highly educated, they possess the virtues that renders society most secure, there and elsewhere, and without which no

community can be long prosperous or happy. We conclude, for the present, by reminding our readers of a homely but sensible a dage, and which is, like many other old things, very good. "It is very well to let well enough alone."

From Nova Scotla--Great Falling Off in the Crops &c.

Several vessels have arrived at this port from Nova Scotia, loaded with live stock. They report that the drought has cut off the crops to such an extent, that the cattle cannot be supported there the coming winter. Oxen can be purchased there for \$20 per yoke, and horses for one quarter their value. Farmers, owning several cows, are giving away two to

PITTEFIELD, September 15, 1849. The old church, which has been used as a carpenters' shop was set on fire at 3 o'clock this morning, and entirely consumed. The new building, adjoining, which was nearly completed, was also destroyed

NAVAL.

The frigate Raritan, 44, the flag ship of the Home Squadron, leaves us to-day for the Gulf of Mexico and the West Indies. Her mission is doubtless connected with the troubles in Cuba, and the Round Island expedition. The following vessels, in addition to the Raritan, are either already in the Gulf or on the coast of Cubs, or on their way to those countries, viz: the corvettes Albany, and Sarstoga, the steamers Water Witch, and Gen. Taylor, and the schooners Wave, and Flirt. The corvette Portsmouth dropped down from the

Navy Yard yesterday, and anchored off the Battery She will sail very soon as flag-ship of the African Squadron, with Commodore Gregory on board. N. Y. Journal of Commerce.

The Belgian brig Marie Antoinette has arrived here, in charge of six persons who assisted in getting her off a reef. She was on her passage from BACON Antwerp to Havana; and it appears that a mutiny Hams, N had occurred on board and the captain and first mate were murdered by the crew-the second mate being spared, to navigate the vessel. After the vessel went ashore, the second mate gave information of the facts to the wreckers, by whose assistance the murderers were secured, put in irons, and Cotton Vains. brought before the authorities. They will be sent to 4.4 Havana, and delivered into the hands of the Belgian PLOTER. Consul. The vessel was libelled, and \$900 salvage awarded The brig Judson has been repaired, and sailed. The schooner Sylvester, from New York, sailed

hence for Brazos, on the 23th of August. The schooner Governor, Arnold, from Philadelphia, put n here, obtained supplies of wood and water, and sailed for New Orleans.

The Arrival of two German Republicans--The Health of the City.

BOSTON, September 15-12 M. Colonels Henry Ney and Villechamp, of the German republican army, arrived here this morning in the brig Chenamus, from Gibraltar. They escaped across the mountains, disguised as sailors, and after undergoing great hardships, succeeded in getting to Gibraltar. One of them was carried on board the Chanamus in a sack.

The number of deaths for the week ending to-day

A woman named Charlotte Levering, in a fit of assion on Saturday night last, seized a large car ving knife, and plunged it into the body of a man were both Germana, employed in the Mount Pleasant Hotel, located in Ninth, above Chesnut street, -The murderess has been arrested.

from the body.

SHOCKING RAIL ROAD ACCIDENT.

the Fitchburg rail road this morning, it met at Somjust stopped at the station for passengers who were in waiting. Among the number was Mr. Amos Fairbanks, shoe dealer at 33 Merchant's Row, who was probably standing between the two track, not perceiving the approah of the up-train. He was struck backward across the track, and the cars passing diing manner, and killed him almost instantly. Mr. Fairbanks was highly esteemed by all who knew him, and had recently moved his family to Somer- \$1,20 a \$1,25 deliverable; and on Saturday some ville, where he had erected a beautiful mansion.

Boston Journal.

COMMERCIAL.

REMARKS ON MARKET.

Transactions since Tuesday have been light- the inclemency of the weather yesterday preventing much being done out of doors.

TURFENTINE .- On Tuesday last, one lot of 100 was 160-showing a large decrease; 47 of these bbls. Yellow Dip was sold at \$2,25 per bbl., and on Wednesday morning another lot of 100 bbls, was disposed of at \$2,20. One lot of 50 bbls. New Scrape was sold at \$1 25.

SPIRITS TURPENTINE .- Transactions are slim.-The last sale we hear of was at 27g cts, per gal. TIMBER.-Two Rafts common short Timber were named Louis Dod, killing him instantly. They disposed of on Tuesday evening, at \$2,00 per M. ft. Surnouss-Sales dull. One Flat load arrived yesterday, but was not sold when our paper went to press

NEW YORK MARKET.

Sept. 7. We have but little to note from this marnear Gray's Ferry. The wheels passed over his ket, later than what appeared in our last. The stock market is dull and heavy, and the downward tendenency continues. U. S. 6s, 1567, have receded 1 and those of 1868, 1.

Cotton .- The market was easy for buyers early in As the first train for Watertown was running over the week, which was partially increased by the steamer's news, so that sales were made at #c. decline erville the Waltham train for this city, which had from the highest point of the season-sales Sf a 11. Rice .- In moderate demand, and principally of a retail character. The sales for the week are 800 tes. at \$3,25 a \$3,81.

Naval Stores .- Rough Turpentine is easier, with sales of 4,000 bbls. North county at \$2,63 for old and by one of the cars of this train, which threw him \$2,75 for new. Spirits of Turpentine is a little lower, with sales at 354 a 37, cash and 4 months. Pitch is rectly across his body, mangled him in a most shoc- higher, with sales at \$1,37; a \$1,50. Rosin is nearly out of market, and in consequence is higher, with sales at \$1,10 a \$1,15 for Wilmington, in yard, and

> North county sold at \$1,10 on the wharf. Tar dull at \$1,88.

PROSPECTUS.

THE RICHMOND REPUBLICAN.

DAILY, SEMI-WEEKLY, AND WEEKLY.

THIS PAPER, which has been three years under L the charge of the present conductors, OLIVER P. BALDWIN and ROBERT H. GALLAPER, is now becoming familiar to the citizens of Virginia. It has grown into favor by the pursuit of a steady and unwavering devotion to Whig principles, and by a mild but firm advocacy of Whig men and measures.

Having labored zealously to promote the election of the patriotic and enlightened Chief Magistrate of the nation, it is now desired by its publishers to give it greater efficiency by an extended and gene al cir-culation. They consider the unity of the Whig party an object above all personal considerations, and they now appeal to the Whigs of the State to aid them by a liberal subscription

The Editors will continue to give their attention to the various Public Improvements, and labor assiduously for every object calculated to enhance the prosperity and renown of the old Commonwealth. The Daily Paper, by mail, \$8; Semi-Weekly, \$5; Weekly \$2; 15 be paid invariably in advance.

ADVERTISING. The Republican affords one of the best mediums for country and city advertisements, of any journal in the State. The terms are:

In Daily Paper-One square (15 lines) 50 conts rst inseriion ; 25 cents each continuance. In Country Paper-75 cents per square, first in-

sertion, 37; cents for each continuance. Address, RO. H. GALLAHER, Proprietor. September 20.

79-tf.
