NEW MEXICO.

Interesting accounts from New Mexico, in addition to what we publish from the N. Intelligencer, are received. They relate to political movements in Sante Fe. Meetings of the citizens were held on the 21st and 22d of August, the object of which was to consult upon the question of the organization of a proper territorial Government. A Preamble and Resolutions were adopted, the substance of which is, that having waited three years for the action of Congress, the time is come to provide for themselves; that-they have patiently endured all the grievances and inconveniences, incident to the rule of military authority, and been subjected many times to arbitrary exercises of power for want of a well regulated

civil government, The meeting proposed that mass meetings should be held to choose Delegates to a General Convention, as the best way of ascertaining the wishes of the people, and of adopting such measures as may be most effectual to the attainment of a good civil government. It is also provided, that said Convenon slect some suitable person to carry any proposed form of government the Convention may deem proper to adopt, to Washinington, to sek and urge its reception and adoption, and that a sent in the House Representatives, according to the precedent of nesota, he neked for the Delegate.

Later from Santa Fe--- Another Fight with the Indiana. St. Louis, Nov. 6.

NOTICE

To Masters and Consignees of Vessels arriving

at the Port of Wilmington, N. C. CAUTION. This is to apprise all persons interested in the shipping interest of this port, that the subscriber is Harbor Master for the port of Wilmington. No. Ca., and the fees persianing to said office are collectable only by himself. Any demand made by others should be regarded as illegal and assumptive; and against any, so acting, the law shall be exerted to its fullest extert.
JNU. S. JAMES, Hurbor Master.

The singularity of the above advertisement, in an old and well regulated seaport like Wilmington, necessarily requires some explanation; and in justies to myself and the community, I give it. I was elected Harbor Master for the Port of Wilmington, in the year 1848 ;-the Commissioners of Navigation (to whom the appointing power belongs) are elected every year by the people; during the meeting, of the Legislature, in the winter of '48-'49, the law was so altered as to make the day of election of said Commissioners come on the first Monday of May, instead of the first day, for the purpose of avoiding the consequence of its coming, at some time, on the Sabbath. From negligence or invelvertency, the new law had escaped the observation of the people, and the old day, the first of May, was the day on which the election was holden, instead of the first Monday, as the law requires. There was some excitement and much industry displayed on the said day of election, which resulted in the suc-10 cess of the ticket which follows, viz :- B. FLANNER, D. McMillan, Jno. A. Taylon, EDWARD KIDDER and O. G. PARSLEY, who at once assumed the consequence and importance which should belong to a body so respectable ; but, elas; for the glory of their new dignity, in an evil moment, (although they had month to consider the matter.) they took it into their wise heads to turn out the incumbent and put another man in, whose circumstances and business were such that he did not require the salary, nor could be attend to the duties of the office 1 will here take occasion to say, that, although the appein ing power rests with the Commissions of Navigation for their officers, yet there is no time prescribed, by law, for such appointments, the natural inference is, that the election is good during good behaviour-or an impeachment. For the establishment of these facts, precedents are numerous, and within the memory of many of our citizens. At this time, it is notorious in our community, that there are no legal Commissioners of Navigation. JNO. S. JAMES.
