THE MURDER CASE.

The following appeared in the Chronicle of yester-

terday "Atrocious Murder-Base Collusion - An article under the above alarming head appears in yestorday's " Commercial" which is well calculated to excite appleasant feelings in the minds of our mighbes of Payetteville, and we, in all kindness, think not calculated to do any good. The Comm. wint is misinformal as to the real state of the case, as we leven from a gentleman of high responsibility, who was in Fagetteville at the time of the occurr nee alladed to. He informs us that the coroner is a gen thoman of the highest character, and that he is a mechange, and that no blame can be imputed to him or the jury of inquest. It being ramored about town that Mr. Simpson came to his death by some secret vacuus, the lifends of the unfortunate woman insisted anon a post-mortem examination, and a jury of in." quest, was according called to examine the body with the aid of three distinguished physicians, and the cruse of the delay did not arise as the Commer. eial supposes from any want of energy on the part of the curoner or jury, but they only wanted till the physicians could determine whether the death was produced by poison. This much we say in justice, to our neighbors of Faystteville, for whom we desire to entertain the kindert feelings."

We hardly know what to make of the above extraordinary and unsatisfactory language. Our neighhor takes this opportunity to express his desire to "entertain the kindest feelings" towards our neighbors of Fayetteville, and speaks this much in justice ! to them.

And, pray, who has assailed "our neighbors" of Fayetteville? No remark has been made against the citizens, but only censure on those who are accused of criminal conduct.

. If no blame is to be imputed to the jury of inquest. we will be among the first to do justice to them .-But the letter which conveyed the information to this place, and on which our remarks were grounded. was written by one who could not fail to know all about the matter-if there has been any misrepresen. facton, we stand ready to clear it up in a proper man-

Since the above was in Type, we have been handed a copy of the Observer, which contains the her boiler. following:

A HORRIBLE CRIME - In our last we briefly reand favorably known in this place and the surroun- plotion took place. ding country as the proprietor of one of the Carriagemaking Establishments of this place. We are grieved and shocked to be compelled now to add, that he It is impossible to tell how many lives were last died from the effects of arsenic, administered to him, . The number is estimated as high as one him beef as the Jury of inquest believe, by the hands of his Many bodies have been recovered -vome dead We wish we could be spared the duty of recording so horrible a crime, and of wounding the la impossible totall to which sex they believed. sides. But the Press should know no distinction in We do not propose to enter into any detailed | The utmost confusion and construction prevails.

statement of the horrible circumstances. We have that for the proper tribunal, and the proper time. - the extreme. But will merely state, briefly, that in consequence of · uspicious circumstances, a post mortem examination a distinguished chemist, and that the presence of arwenie in the stomach was palpably established. After which, a number of wirnesses were examined. and the Inquest came to the belief that the poison was administered as above stated. A bench warrant was issued by Judge Dick, but the officers have not succeeded in arresting Mrs. Simpson. We learn that measures have been taken to obtain the offer of the customary reward of \$200 by the Governor of the Sente for her apprehension.

The Grand Jary of the Saperior Court, then in session, inquired into the matter, and found a bill egainst Mra. Simpson for the murder.

THE PANORAMA.

We witnessed the exhibition of this truly splendid Painting, at the Theatre, on Tuesday night, We were much pleased with it, and believe in this we but participated in the sentiments of the auditory .-The Preprietor is noticed in some of the papers as a poor Boston Boy," who has attained a very respectable position in the scientific world by his own perseverance and industry. This is a recommendation; but the Panorama speaks more eloquently than words can do, in praise of his merits, and no other testimordal is needed to ensure approbation of the work, .han its presentation to an intelligent auditory.

JOURNEYMEN PRINTERS.

The following, which is signed by Wir. F. SMYTH, President B. P. Union, has been sent to us for grants, and unknown in this country. publication. We learn that the Boston Printers require no more than is paid in New York. This begett.

FELLOW CRAFTEMEN :-- We beseech and warn you to place no dependence upon advertisements or hand-bills from the Newspaper and Printing Estabishments of Boston and vicinity, offering employ- six E, &c. ment to Printers. There are no situations to be had, except those vacated by men who are now on "a Stike" for an advance in the rutes of pay. Thirtytwo establishments have accorded to, and now pay, breeze? the rates required by the Union. The advertisements for hands we believe to be merely an experisagest to induce the journeymen to return to their work at the old rates. We therefore, carnestly deeire you to use your influence to induce Printers not to come to Boston for employment until the matter between the journeymen and employers is settled .- an extract from an Agricultural Address: It is very probable that the differences between emthe course of a week.

OFFICE MAIL AGENT, Wilmington & Rol. R. R. Nov. 21, 1949, Mr. Louise :- A man by the name of Jony Pir-

was ran over yesterday morning, before day, near the 110th mile post, on the Wilmington & Raleigh Rail Hoad, in Edgecombs county, and instantly killed. He was lying on the track in a state of intestestion. The Engineer was not aware of any thing of the kind until he arrived at the breakmet, and many a heavy load, said he, I often -heeled house, when he discovered a part of the man's

clothes, on the cow hooks. I understand he leaves a wife and six children. What a warning to dram Very respectfully, drinkers W. A. WALEER.

GEN. SAUNDERS.

The Raleigh papers announce the return of Gen. SAUNDERS, late Minister to Spain, with his family, to that City.

Additional Foreign Latelligence.

ABBASSINATION OF THE GOVERNOR OF MACAD BY THE CHINESE. A most atroclous act of barbarity, has been committed at Macao on the 231 of August, Signor de Amaral, While taking his customary ride in the evening accompanied by his ail de camp about half a mile from the foct, and 330 yards from the burrier gate, he was add lenly attacked by eight Chinamen, and dragged from his horse, when the murderers backed off his head and hand and disappeared through the gate.

The Portugues sol liers, impatient to avenue the death of the Governor, had taken possission of the barrier-gate, and beyond the gate had devrey da small fort, the fire from which molested them.

In effecting this 7 Portugues soldiers were wounded, and, it is said, 74 Chinese kill d. Sasson as the intelligence of the assassination of the Governor reached Hong Kong, her Mileste's stip Amagaa and steamer Medea left for Macao, for the protection of British subjects, and by their presence to give coantenance and support to the Portuguesh author-

Another Iron Steamer for California.

An iron steam vessel, of larger dimensions than any that has historio been forwarded to the Western coast, is being constructed at the Phornix Foundry, in Weststreet, for a gendeman of Jers y City. She will measure about 130 tons; is 100 feet in Jen_th, 22 broad, and 5 fect deep. She will be of a light draught of water, designed for the navigation of the rivers of Upper California; the San Josquin and ber, instead of the 3rd, with her intermediate shaft Sacramento. Her engines, two in number, will be of the higheresoure variety, of fifty-five horse power each. She will have cabin accommodations for 150 Western continuing on the New York route in her passengers. Her estimated cost is \$25,000. Being room. The Great Western will probably exchange formed in sections of boiler plate iron, she can be places with the Dee, on the 6th of December, at easily taken apart, and sent around to her destina-Berninds, and proceed to England, the Dee taking tion, as freight. She will be completed in the early

The same founder, Mr. G.o. Birkbeck, Jr., is putting together another small iron steamer, to run on The brigactine Golden Rule, Captain Watlington : Lake Titicaca, a considerable sheet of water situated arrived on Sunday evening last, in 51 days from Ma. on one of the peaks of the Andes, in South America, BARKY, BRYANT & ADAMS. near the confines of Peru. The contractors are the remainder male adults. They are all engaged to Messra, Squirre & Galway. It is understood the dealen is to barter with the hunters of those lofty regions for the fine palts procured by them in their maraudings, or to transport their fors from the mountain recess to more accessible parts. The velaborers will answer the end contemplated; and we sel will be transported thither in pieces of 350 lbs each, via Linn, or some other scaport town on that coast. She is 55 feet long, 5 deep and 12 broad. She will audoubtedly "astonish the natives."

At the wharf opposite the foundry, is a beautifully Hon, the Earl of Dundonald, G. C. B., anchored at proportioned little steam vessel for Capt. Forbes, re-Ireland Ivlind yesterday, after a passage of 10 days ceiving her machinery. She is called the Taboga, and will east on a few weeks to ply on Tahama Ball
