hereby give notice, that I have been appointed Agent, for the sale of the above singular and tru-ly valuable substance. It can be applied by any person that can use a brush; and soon, by exposure to the atmosphere, forms a complete coating of slate or stone. Its adhesive properties are so great that it never cracks or scales off from the wood. It is particularly applicable to a southern climate, as the humidity of the atmosphere destroys the beauty of white lead, but cannot effect a change in this indestructible Paint. Roofs of buildings coated with it are Fire Proof; it has been used on Steamboats and Railroad Cars with success; it is much cheaper than a tinned Roof, or even white lead; 100 lbs. will cover 1000 superficial feet. Wholesale 4 cents per lb., at retail 5 cents; it can be procured at retail at the store of R S. DRIVER and in barrels, of me, at my office. Terms cash, on delivery.

Gov. Morehead then read a letter from G. B. Manly, & Co., of Lock Haven Clinton Co. Pa. containing a prop to take contracts upon the Road to do the grading for 50 miles East and the same distance West of Raleigh, at certain ra named, and furnishing timber, rails, de and receive in payment 10 per cent. of stock; or to take 50 miles, on the same condition as before, and employ N. C. laborers, &c., which was read.

Also, as chairman of the Cor ed report of the amount of absolute scriptions of stock, amounting to \$190,800; which report he followed with a speech full of deep impassioned feeling and great power,—listened to with breathless attention and the most intense interest. The gallant and determined spirit of this distinguished gentleman touched every heart in that assembly, and awoke a feeling of enthusiasm and anxiety deep, startling and

fervent as we have ever witnessed. Gen. B. M. Edney followed in a course of remarks characterized by great earnest-

Gen Saunders, from the Committee to whom were referred the question of considering the best plan for securing whatever portion of the capital of one million of dollars should be found unsubscribed, according to the terms of the charter submitted in part the following report :

1. Resolved, That so soon as the Company shall be duly organized, it will be both expedient and proper that the President and Directors shall cause the proper surveys and estimates to be made, and the Road to be put under contract on the entire route,-and that the superstructure should be commenced at its point of connexion with the Wilmington Road, and also at its western terminus.

2 Resolved, further, That the President and Directors, in letting out the contracts for work and materials, shall in all cases give a preference to such stock-holders as may propose or desire to become contrac-

3. Resolved, further, That it is highly important and necessary that the whole of the unsubscribed capital of one million should be subscribed before the adjournment of this Convention, and that a su scription be forthwith opened for that pur-

The question being upon the 1st and 2d Resolutions,-

Gov. Motchend submitted his views JUST RECEIVED, PER SCHOONERS against the latter part of the 1st Resolution which provided for the commencement of the Road at the point of connection with the Wilmington Road, and also as its western terminus. Mr. George Davis explained that the

Cabbages, Irish Potatoes, 4-c., &c. Low for cash at object of the Wilmington delegation was that the iron might be brought to Wilmington, and carried on their Railroad with facility and cheapness; and the passage of the Resolution would materially aid the obtain ing subscriptions to the stock in that portion of the State.

JUST received per Schr. Alaric from New York, Russia fine Yarn Bolt Rope all sizes "Standing Riging from 4 to 65 inc. 25 Bales extratOakum. Hand lines, hand leads, Cov. Swain then addressed the Convention, proposing a modification of the Resolution that we go the whole Road or none, if that would meet the views of the Wilmington delegation.

Gen. Saunders tend the Resolution again, to show that the first part of the Resolution affirmed that the whole Road should be built. He was opposed in Committee to the last part of the Resolution, and was unwilling to trammel the President and Directors by any conditions. He submitted to the Wilmington delegation to withdraw the latter clause, with the assurance that he would vote for any separate resolution declaring that the whole Road should be built, if any of it, and leave the whole matter to the sound discretion of the President and Direc-

tien S. had the authority of the Wilmington delegation to withdraw it, so that the grading of the whole Road should commence on the entire route from Goldsboro' to Charlotte, and proceed pari

Dr. Hill also stated the reasons of the Wilmington delegation; made a most effective appeal in favor of the work; and concluded by declaring that be would be one of a hundred to take all the stock unsubscribed; one of fifty, or one of ten.

Gen. Saunders then rend the 1st Resolution as proposed to be amended by agreement, as follows:

Resolved, That as soon as the Company shall be duly organized, it shall be both expedient and proper that the President and Directors shall cause the proper surveys and estimates to be made and the Road to be put under contract on the entire route,-commencing at the Wilmington and Raleigh Railroad, where the same passes over Neuse River, in the county of Wayne, via Raleigh, and thence by the most practicable route via Salisbury, in the County of Rowan, to the town of Charlotte, in the County of Mecklenburg
