## THE COMMERCIAL.

## WILMINGTON, N. C.

THURSDAY, DECEMBER 20, 1849. CHRISTMAS.

To give the persons connected with this establishment an opportunity to participate in the festivities of Christmas, no Commercial will be issued on Tuesday next.

Our advertising friends will please notice this, and send those advertisements they wish to appear before Thursday, to the office on Friday, that they may appear in Saturday's paper.

#### AUCTIONEERS.

Mr. J. H. ROTHWELL and Mr. W. A. LANGDON were appointed Auctioneers by the Court of Pleas and Quarter Sessions, held in this town last week.

Wilmington and Manchester Rail Road. The communication of F. in another column, is one of the most important and interesting papers ever presented to the consideration of the triends of internal improvement, in this community especially .-The facts are weighty and are from an entirely reanonsible source. The author well understands the subject, and makes an appeal calculated to arouse our citizens to action. We hope the appeal will not be made in vain, and that our friends will see that self-preservation and the prosperity of our town, require one more struggie in favor of this important work.

EDITOR'S CORRESPONDENCE. RALEIGH, Dec. 15, 1849.

We got 4 additional names in Raleigh, yesterday, to go in as part of the 100 in the Central Rail Road, besides some smaller subscriptions. This makes Raleigh 10 of the 100. Guilford is still two shead of us; but we shall catch and pass her yet. All that is yet done has been done in Raleigh. The country has done nothing, but I still believe Wake will wake up and do something for her interest and credit.

Gen SAUNDERS made a powerful appeal to them to come up to the work, but it would seem there was a studied effort with the woslthy farmers of the country to keep out of the way, for fear they would be induced to take stock.

WASHINGTON, DEC. 16-5. 45 P. M. Received in Charleston, Dec. 17-6. 40 P. M. NO ELECTION OF SPEAKER YET.

The United States House of Representatives has again adjourned without electing a speaker. Our correspondent informs us that on the last ballot the vote was as follows :- Winthrop 67; Boyd 67; Hugh White 16; Porter 13; Morehead 14; Stephens 6; Strong 5. Stanly has withdrawn from the contest.

#### FOR THE COMMERCIAL.

Ma. EDITOR :- I see in the last Commercial, a new Ticket for Commissioners; I cannot see, for the life of me, why our citizens wish to make a change. I am sure the present Board of Commissioners have discharged their duties satisfactorily, and I, with many others, say keep the present Board. You will oblige many of your Fellow-Citizens, by inserting this Ticket in your paper :

> J. T. MILLER, G. W. DAVIS. L. H. MARSTELLER. W. C. HOWARD, JOHN DAWSON

to build a road from a town to any other point, means from the centre of the two said points.) . Under these circumstances, we think it probable that the town may build it to the River hereafter. At least it ought to be done, and increase the taxes on vehicles in proportion to the facilities afforded equal; but taking into consideration the favorable Webster should be held for trial on the charge of bethem. ACCIDENT TO THE REV. MR. MCRAE.

We understand that the Rev. Cameron F. McRae of Warrenton, who was here on a visit last week, and was on his return home by the way of Fayetteville, mut with an accident there on Thursday night which nearly deprived him of life. He was expecting a horse from this place on one of the Steamers, and on the night mentiond, went on board the Steamer Wm. B. Meares, in company with one of his brothers, to await the arrival of the horse. Coming out of the cabin of the Meares, when it was quite dark, and not being aware that the hatchway was uncovered, he fell into the boat's hold, which is a deep one. He was taken out insensible, and remained so some time. To what extent he was injured.

BOARD OF HEALTH.

we have not learned, but trust that he was not to a

serious degree .- Chronicle.

The Committee inform the public that since their report of the 10th inst., no new cases of the Small Pox have occurred within the limits of the town. They deem it right, however, to state that four individuals who were in the hospital attending to their friends have within the last few days sickened of the disease, and as they are the only persons connected with the hospital who are liable to it, the committee entertain the hope that the disease will very soon he arressed.

	JOSEPH AREY,
	JAMES SUNDY,
	WM. McLAURIN.
Fayetteville, Decem	ber 14, 1849.

#### NAVAL ACCIDENT

The Annapolis Free Press has thefollowing: "Fell from the mizen topmast head of the United States frigate Independence, Daniel Hayes, first class boy. on the morning of the 25th of October, 1819. He died instantaneously-leaving a mother in Baltimore who was supported by his labor. He was buried at Spezzia."

(FOR THE COMMERCIAL)

Mn. EDITOR :- The action of the Goldsboro' Convention has done much towards securing the Charter of the Central Rull Road and harmonizing the two sections of the State. The delegates from this place-deserve the thanks of our citizens, and even of the whole State. But while we are urging upon our citizens the importance of securing the State's appropriation, and the consequent construction of that important work, we should not forget that the whole

amount (\$750,000) necessary to secure the subscription of South Carolina to the Manchester Road, has not been raised. It is known that the total amount subscribed to the Manchester Road is about \$680.000 | dividual subscriptions can be legally called for. This Company was organized about two years ago.

have taken most of the contracts offered, and, waiv-

ing the legal right to pay the subscription in fire years,

two years, or less time. Columbus county has al-

ready subscribed a larger amount, in proportion to her

means, than any people on the face of the Globe have

ever done, and, consequently, but little can be done

in this County. In Brunswick county, but tew per-

sons reside along the line of the Road, and therefore

we cannot expect a great increase in this County .--

The present subscription of the town of Wilmington

is short of \$200,000, but at one time exceeded \$250,-

000, and I have no doubt, if it again be raised to that

amount, the remainder can be raised along the line

of the Road - nay, I would almost pledge myself to

guarantee it. Cannot a Company of one hundred

individuals be found in this town, who will come

forward and secure, beyond the shadow of a doubt,

the construction of this work, upon which depends

the success of the Williamgton & Ruleigh Rail Road,

and the prosperity of the town? It we tail to obtain

that amount, we may abandon all hope of ever see-

Recent advices from the South Catolina Legisla-

on the application of the Company to remove the

restrictions to the appropriation ; there is no pros-

pect of a successful negotiation for fron for increas-

ing the amount of stock ; and the only chernative

produce can be transport\_d to a market by the cheap

est way. The cost of transportation on a Rail Road.

bestowed will all be in vain.

the centre of town (the legal construction being, that | all things else being equal, depends upon the distance, and the grades, or the load that can be can-veyed by a given amount of power. Applying this ton at Boston into the case of the murder of Dr. to the Manchester Road, it will be seen that the dis-tarkman has been promulgated. The jury after a tances to Wilmington and Charleston, from Maye's veck's examination of witnesses, returned a verdict Turnout, near the centre of Sumter District, are that Dr. Parkman was murdered, and that Professor grades (15 feet per mile) from the Great Pee Den bg guilty of the murder. # constructer soon after the Manche or Rule. The 6th of October, and several others were reported to meet them. distance from the Junction of this Road with the have been murdered near Sante Fe.

It is believed that the Districts of Houry, Mation, represent the cholera as raging fearfully at that place. vention. Dailington, and that portion of Sumiter which is Not less than 7510 100 deaths were occurring daily-

The following remarks are from the Alexandria

THOS. D. MEARES, J. G. WRIGHT.

#### FIRE IN NEW BEDFORD.

We learn from Hatch, Grey & Co's express, that the large river factory, situated on South Water street, New Bedford, owned and occupied by Measts. Taber & Co., was burnt at about 3 o'clock this morning. The building was of stone, and with the exception of the walls was entirely destroyed. The cause of the fire we did not learn.

Boston Journal, of the 13th inst.

#### DESTRUCTIVE FIRE The "Willow Bark Mill," situated in Flizal eth

township, Lancaster co., Penn., and owned by Mr. Elins Ely, was destroyed by fire on Monday last There were about 15,000 bushels of grain stored in it. Loss, \$12,600, of which \$2000 is covered by insurance.

#### 1RON WORKERS' CONVENTION.

The Convention of Iron Workers, held at Albany, on Wednesday week, adopted, among others, the following Resolutions :

Resolved, That this Convention regards the protection of American labor as one of the first duties of Government; that the history of the Protective Policy in this country is the history of the rise and growth of our manufactures and the triumph of American industry; a policy having for its object the just reward of labor and the elevation of the labornig classes; a policy which distinguishes justly between American labor and halt paid and half fed labor of foreign countries; which remunerates American labor without injury to the consumer of its products, and upholds all the great interests of the country by giving well-paid employment to our people, bringing wealth, independence, and happiness to all.

Resolved. That we are not in favor of an excessive duty on foreign importations, but such a rate of duty se will enable us to enter into fair competition with the foreign manufacturer, and such competition can only be secured by a system of specific duties laid upon foreign producte.

#### THE HERMANN.

The American steamship Hermann, which arrived at Hullfag on Tuesday, has on board about eighty presengers, among whom are Mr. Doualson, late Minister of the United States at Berlin ; Herr Schotburg, astronomer from Berlin, who has been ap. pointed to the Observatory in Washington; and a number of Hungarian exiles. The Hermann has on freight a large quantity of merchandise, the estimated value of which approaches £150,000 sterling, and slusive of passage money or the mail contract.

From the Fayelleville N. Carolinian. THE PLANK ROAD is laid now from the contre of town, the Market House, to the top of Haymount, and from Murchison's factory about 3 miles this way, making over 4 miles completed.

The rumbling of carriages on that part of it in sown, and the solid tramp of horses feet, will give us a noise to get used to.

We think, as most other people do, that the structure ought to be continued to the river ; but the Directors, under the advice of able counsel, as to their duty, de not feel authorized to build it further than
