

Dear Liz'

Still In Love With Ex-Boyfriend

Dear Liz,

The problem I have is that I'm still in love with my ex-boyfriend. We broke up two years ago and I love him as much now as I did then. I date other guys but nobody will ever replace that guy. I love him so much. I try to forget him but I just can't. I see him all the time here and

there, and just seeing him makes me very happy. This feeling isn't puppy love. It is for real. Tell me what I should do.

Love Sick

Dear Love Sick,

Face reality, if he doesn't have the same feelings for you as you have for him, you are fighting a loss cause. Do

yourself a favor and admit the relationship is over. Keep dating other guys, and pray for a true love. Believe me, it will happen.

Coleman looks very much engulfed in his work behind his desk at the brewery. Coleman says there is always something to do.

Chronicle Profile

Black Moves Up In Big Corporation

Ever heard the remodeled modern proverb, "It's not what you know but who you know." For many unfortunately, that is exactly the case, but for one profile candidate recently interviewed what a person knows is still most important. His name is Wesley A. Coleman, Asst. Manager of Industrial Relations at Jos. Schlitz Brewing Company here in Winston-Salem.

Coleman, 26, of 608 Alpine Rd., is originally from Halifax Va. He received a B.S. degree in business management from Hampton Institute of Hampton, Va., in 1971. A year later he got an M.B.A. degree (Masters in Business Administration) from the University of Pittsburg, Pa.

"In September that year, I was hired at Schlitz in Milwaukee, Wis., as a compensation analyst." He said it with a smile on his face. He worked in the compensation and benefits department.

Since then Coleman has made some major strides up the corporate ladder. After two years in the "beer capitol", Coleman was promoted in 1974 to senior compensation analyst.

In November that same year, Coleman was again promoted and that promotion brought him to Winston-Salem. Here, he became supervisor of employment safety and office services.

Two years later, in Feb. 1976, he was again promoted, this time to the position of Asst. Manager of Industrial Relations. What do his new responsibilities include?

Coleman is now in charge of all levels of hiring at the plant here. He is also responsible for the plant's college recruiting.

Coleman also coordinates the safety programs at the plant in addition to being involved in employee grievance procedures and discipline. He also supervises the plants office services such as the mail service, janitorial service, and company car maintenance.

Coleman says he likes his job and plans to attain other self-set goals within the company.

In addition to his duties at the plant, Coleman serves on the Board of Directors of the Winston-Salem Urban League. He also sits on the Board of Directors for the Schlitz employee credit union. He is a member of the Winston-Salem Personnel Association and a member of Omega Psi Phi fraternity.

In between his busy schedule, Coleman occasionally finds time to play tennis. While at Hampton, he lettered as a first baseman.

Coleman is married and he and his wife Barbara have one child, Wesley, Jr.

YOU AND THE STARS

by sylvia hairston

February 1 to February 7

Astrology teaches that the Black race is under the rulership of the sign Pisces. Neptune is the dominant planet of this sign...and when in bad aspect and conflict shows danger of chaos, deceit and treachery being practiced. Neptune also is a determining signal of ambush, restraint, privation and all limitation of personal freedom, including voyages by water. Applying these signals to the interpretation of a chart of a people ruled by the sign Pisces, the black race was to indeed bear the burden of the effects of malicious aspects which were no doubt the chief points of the horoscope of blacks at the beginning of the period of enslavement.

If the black race is indeed ruled by Pisces, it is easy to account for the empathy and belief in basic goodness which is basically part of the character of our race. It is easy, also to understand the great

artistic nature. For, there is no denying the tremendous ability of singers, dancers, musicians and athletes numbered in our race.

Black people are learning, and must continue to learn, to deal with the hard core (rather than surface) emotions. Gentle methods can have no part if we are to emerge into a nation of greatness...for surely the patience, endurance and fortitude of a people that has survived under the most adverse, severe trials and conditions, is self evidence of a strong race that is capable of survival.

Space does not allow me to give a more detailed astrological biography of the Black race in this column. But, astrology teaches that, as the position of planets shifts in a time pattern or horoscope, so will the conditions of the subjects under its rulership. The Black race will have its rendezvous with the stars, and continue to go forward

and assume its rightful and equitable place, along with honorable destiny despite Neptunian oppositions.

ARIES-MAR 21-APR 20
