## THE TRIAD...CHECK IT OUT!

### YOU AND THE STARS Continued from Page 11

**LIBRA-SEP-23-OCT-22**  
Your cooperative and social nature comes out for an airing, during this short but merry month. From contacts will come new responsibilities. A friendship that may have been going to pieces will take on a new look. Part of the change in your attitude which has been going on for sometime now, may be your interest in mystical and occult subjects. You may find that you are more talented than you ever thought you could be.

**SCORPIO-OCT 23-NOV 22**  
If you haven't already, you are ripe to strike it rich during this fortunately aspected period. Financial affairs can demand a big decision and give added burdens, so be sure to get enough rest. From new involvements, you may form new romantic attachments and you can meet interesting and powerful people on their levels. Any family difficulty which is likely to arise now can be ironed out. Friction may show up in your social life if you become involved in too many directions.

**SAGITTARIUS - NOV 23 DEC 21**  
This is a demanding period, work can keep you busy late at night. You show an increase in interest of higher learning and education, which will bring you extra prestige. Life seems quite restricted, you get through the days and nights in a somewhat brooding and resentful manner. There is a certain amount of obstinacy on your part. Deterioration of work might occur and in romantic matters you may feel lost. Do not let this short lived negative period make you

undermind your health.  
**CAPRICORN-DEC 22-JAN 19**  
Major events are taking place in your life now, family members seem to understand you better and greater harmony is found there. Romance may have to take a back seat as family responsibilities demand a good deal of your time. You are capable of handling them, and welcome the proof of your abilities whether they are job related or in connection with your home and loved ones. Your home is the center now for social events, if that is your wish. An excellent period, with just the right mix of spiritual and material to make life interesting and rewarding.

**AQUARIUS JAN 20-FEB 18**  
Your eccentric nature will enjoy this period as communications are stepped up.

Your family and neighbors are in touch more often, and you get news of happy social occasions in which unusual and interesting friendships are made. You may glide through much of the time taking things for granted and letting your work lag behind and will need time to get back to routine and on schedule. You'll be glad too, for a chance to relax, and some evenings for meditation, happy and contented with good books.  
**PISCES-FEB 20-MAR 20**  
This period could bring fulfillment of desires you have long been wishing for. You may meet new types of friends and see important changes in your professional life, bringing the status you have been looking for. This recognition will not come easy, and work will be necessary in order to draw profit.
