TRIAD CHECK IT OUT!

You And Stars Continued From Page 9

far into the future.
LIBRA-SEP-23-OCT-22

Your cooperative and social nature comes out for an airing, during this short but merry month. From contacts will come new responsibilities. A friend-

ship that may have been going to pieces will take on a new look. Part of the change in your attitude which has been going on for sometime now, may be your interest in mystical and occult subjects. You may find that you are more talented than you ever thought you could be.

SCORPIO-OCT 23-NOV 22

If you haven't already, you are ripe to strike it rich during this fortunately aspected period. Financial affairs can demand a big decision and give added burdens, so be sure to get enough rest. From new involvements, you may form new romantic attachments and you can meet interesting and powerful people on their levels. Any family difficulty which is likely to arise now can be ironed out. Friction may show up in your social life if you become involved in too many directions.

SAGITTARIUS - NOV 23 DEC 21

This is a demanding period work can keep you busy late at night. You show an increase in interest of higher learning and education, which will bring you extra prestige. Life seems quite restricted, you get through the days and nights in a somewhat brooding and resentful manner. There is a certain amount of obstinacy, on your part. Deterioration of work might occur, and in reomantic matters you may feel lost. Do not let this short lived negative period make you undermine your health.

CAPRICORN-DEC 22-JAN 19

Major events are taking place in your life now, family members seem to understand you better and greater harmony is found there. Romance may have to take a back seat as family responsibilities demand a good deal of your time. You are capable of handling them, and welcome the proof of your abilities whether they are job related or in connection with your

home and loved ones. Your home is the center now for social events, if that is your wish. An excellent period, with just the right mix of spiritual and material to make life interesting and rewarding.

AQUARIUS JAN 20-FEB 18

Your eccentric nature will enjoy this period as communications are stepped up.

Your family and neighbors are in touch more often, and you get news of happy social occasions in which unusual and interesting friendships are made. You may glide through much of the time taking things for granted and letting your work lag behind and will need time to get back to routine and on schedule. You'll be glad too, for a chance to relax, and some evenings for meditation, happy and contented with good books.

PISCES-FEB 20-MAR 20

This period could bring fulfillment of desires you have long been wishing for. You may meet new types of friends and see important changes in your professional life, bringing the status you have been looking for. This recognition will not come easy, and work will be necessary in order to draw profit,

Rams Make All-CIAA

Continued From Page 15

man All-CIAA team were Elizabeth City's Thomas Blue a 6-6 junior center and Virginia State's Doward Tisdol a 6-4 senior forward. Both were selected for the third consecutive year. The leagues leading scorer St. Paul's William Cozart a 6-4 senior forward and conference-player-of-the-year Ray Epps a 6-6 junior forward were named for the second time.

Rounding out the squad Augustine's Sean Powell a 5-10 senior and Norfolk State's 6-3 sophomore Jerrell Wilkerson.

St. Augustine's Harvey Heartley was named Coach of

the Year after directing his team to the Southern Division title.

which consisted of seven seniors, four juniors, and two sophomores, were Herbert Entzminger Johnson C. Smith's 6-4 junior, 6-9 senior Curvan Lewis of Virginia Union, and Hampton's 6-9 sophomore Marvin Payne in the front court.

Joining Tisdol and Helton at the guard spots were Fayetteville's John Barrows a 5-11, senior, Hampton's Tyrone Best a 6-1 senior, St.

Legislative Alert!!

The United States alone could trigger the immediate process of majority rule in South Africa by trade and diplomatic sanctions. The Congress alone, the President alone, or both working together can stop the genocide at work now in South Africa.

The Congressional Black Caucus has urged that the U.S. make the encouragement of majority rule in South Africa an immediate "must." Your help, by contacting your representatives in Washington, would help greatly.
