

# Fishing

With  
*George Booie*

Hope you were able to take advantage of the warm weather during the past few days. The northern shorelines of the lakes thawed and clear water is existing at least eight feet from the banks. You can believe it, the small fry are moving into the warmer water and the winter hungry bass and crappies are following.

Crappies are beginning to get restless. Now is a very good time to bait those piers on Badin Lake at Dixie Shores. Baiting will get those minnows and shad in the habit of feeding at your pier and you will be assured of some good crappie and bass fishing. Fishing under a pier can be very effective if one uses a pole with a line somewhat shorter than usual so you may drop or poke your bait into some tight places. You will need a short line to bring the catch out immediately. You will not have time to play a fish that is caught under a pier.

If you own the pier you can hinge a piece of flooring so it can be turned back for fishing directly under the pier. It is important that the flooring be

replaced after fishing. Almost any specie of fish can be caught off your pier. To broadcast white corn around a pier will be certain to attract big carp. One or two kernels on a number 6 hook will do the trick. Make sure one of the kernels covers the point of the hook. During Spring, carp will take a spinner with a fly attached. The Shyster is a good lure for Spring Carp.

The children are still good prospects for buddy fishing. Kids are always ready to go fishing and are more reluctant to leave at the end of the day. Take a kid along this season; they learn quickly.
