DeVries Campaign Hard At Work

Karl N. Stauber, assistant director of the Mary Reynolds Babcock Foundation, has been named manager of the Jon DeVries for Alderman campaign. DeVries is one of the three announced Democratic candidates for the Board of Aldermen from the Northwest Ward.

up with this suggestion Square Garden and may experienced team as well as a coaching squad more adjusted to the veer offense and wide tackle six defense book for the Rams to surprise a lot of people starting with the Aggies.

Russell To Run Again

Continued From Page 1

Many of the political events of the past few weeks have made him more inclined to run. He disapproves, he said, of Wayne Corpening's Twin City Club meeting, attended by Russell's fellow aldermen C.C. Ross and Richard Davis. "People think that for a few dollars they can buy the black community," he went on. "But black people are getting more sophisticated than that."

Although he admits that the job of mayor is most appealing, Russell seems reluctant to relinquish his position as alderman of the Northeast Ward. He has a successor in mind, he says, if he decides not to run, but he does not favor either David Wagner or Vivian Burke to succeed him.

Russell allayed concern over his health, by saying that he is much better, and that his previous heart attacks will not prevent him from running: "one last time."

Winston Lake Being Neglected?

As an ardent sportsman and fisherman, also a concerned individual when natural beauties are threatened, I find myself perched upon a soap box. You will note in the accompanying picture a situation that is, year by year, getting out of hand. This is not a wilderness scene, but a ring of growth that is gradually choking the areas around the waters and picnic areas of the Winston Lake. The shoreline growth has not been relieved. A hazard exist for small children who may dare to play near the

water's edge. A child could wander away from a group and could be drowned before it was missed. Talking about open spaces, the ones we have are not being maintained. Baseball and tennis courts are getting a special attention. It takes very little maintenance to cut bushes before they reach a choking condition.

Why stress the growth of recreation when the present facilities, grounds and pools, seem to be neglected. Preventive maintenance is needed. A once a year tour of these facilities could possibly eliminate the extreme conditions. Maybe Recreational Maintenance should be made a political

Maybe if preventive measures had been exercised, the Winston Lake pool would have been open this summer. Hairline cracks in masonary will take water and the freezing of some will damage bottoms of pools. Masonary has to be maintained to prevent this occurance. At this point I would like to invite the Parks and Recreation Commission to make a tour of these dying
