The Salem Story: Service and value to the customer are the primary considerations that have skyrocketed Salem from one of over 300 carpet manufacturers into the top 10 in the United States. To Salem and to you SERVICE means: offering you a product that meets your needs at a price you can afford; manufacturing a product that gives you the optimum value for your dollar; offering you the fastest possible deliveries and expert installation; providing you with professional assistance from measurements to installation and clean-up. Service means placing a mill outlet store in your area to directly serve you. We might be selfish, but we at Salem enjoy the glow and excitement on a satisfied customer's face... and we enjoy even more knowing we helped put it there.
