American Legion Sponsors 5

American Legion Post 128 sponsored four Winston-Salem students to Boys' State last week.

Norman Coleman from Reynolds, Walter Black, East Forsyth; Gregory Lytle, West Forsyth; and Willie Johnson, Parkland were among the 450 rising high school seniors to attend the event at Wake Forest University.

Boys' State is a citizenship school providing training in the ideals, objectives, functions, and operation of government.

Political parties are organized with every boy playing an active role. State, county, and municipal elections were held on the legal pattern of this state. The boys perform every operation and fill every position in government, elective and appointive.

The function of Boys' State is to provide a laboratory for a first-hand study of citizenship. Sponsored by the American Legion, Boys' State candidates are screened, the high school principal recommends boys whose characteristics include leadership, character, scholarship, and service.

The women's auxiliary of Post 128 sent Sharon Hardin, a Parkland student, to Girls' State, which is held at UNC-G in Greensboro. Joseph Foster is commander of Post 128. Jim Chambers is chairman of Boys' State.

The best economy occurs at speeds of between 30 to 40 miles an hour with no rapid speed changes. For each five miles per hour over 50 you lose one mile per gallon of gas.

An average idling car uses a cup of gas every six minutes. So, when you stop the car, don't let it idle for more than one minute. Keep track of your car's miles-per-gallon rating. If it drops, get your car checked.

When traveling with children, never try to do and see too much in one day, say extension specialists. For a young child, that's just too much. Plan your activities in advance and allow plenty of time for relaxing. Don't be so rigid that you can't take advantage of other opportunities that open up.
