## Black Station No. 1 In Nation

Can a black radio station successfully harness the white listening market without sacrificing its racial identity? "Tony Brown's Journal," the nation's premier black-affairs television series, tackles this question on "We're Number One!" which will air Sunday, March 13, on WUNL-TV, Channel 26, at 6:30 p.m.

Host Brown examines how a black owned and operated radio station in New York City, WBLS-FM, ascended to the number one spot in the largest market in the nation

where blacks only constitute approximately 11 percent of the population — and retained its ethnicity and commitment to the black community.

Chairman of the Board Percy Sutton talks about the future business plans of Inner City Broadcasting and the numerous problems that faced the company during its infancy.

In addition to WBLS-FM and its sister station, WLIB-AM in New York, Inner City Broadcasting has purchased five other radio stations in the San Francisco/Berkeley, Detroit and

Los Angeles markets.

The corporation also is ranked 20th on *Black Enterprise* magazine's list of the top 100 black businesses in the United States. It grossed more than \$22 million in 1981, more than half of that revenue generated by WBLS alone.

Sutton, however, does not feel that the firm's success is a case for the capitalist system working for black people.

"We have trapped the system and made it work for us," Sutton tells Brown. "Obviously, the system doesn't work for a lot of

white people, but it works for far fewer black people. I want to move from being one of the poor people, but I never want to forget that I was a part of that group that is poor. So, no, I don't believe that capitalism is the solution for all black people. I happen to be a Democratic Socialist who is enjoying the capitalist way of life. I want, as a black person, to leave a legacy."

Sutton also served as the chief elected official of the Borough of Manhattan in New York for almost 12 years.

## Nursing Students Contribute To House

The Student Nurses Association of Winston-Salem State University has contributed \$50 to the Rainbow House of Winston-Salem. The money will be used to help buy a house at 419 Hawthorne Road that will be converted into lodg-

ing for the families of chronically ill children. Expected to be in operation by late 1984, the facility will accommodate families who do not live in the Winston-Salem area. It will be located near North Carolina Baptist Hospital.

The facility will provide a supportive setting where parents can privately share their thoughts and concerns with each other. Additionally, Rainbow House will reduce the travel and room costs that are often a burden for these families.

Winston-Salem State's student nurses participated in this project because of their frequent contact with chronically ill children. Their past projects have included blood pressure screening and the American Red Cross bloodmobile.

#### Securing Your Motorcycle

You don't leave your car unlocked, so treat your motorcycle the same way. Motorcycles are expensive, so they require additional security measures. They must be secured with a mated three-eighths-inch hardened steel alloy chain and padlock of equal strength. Sheathed cable has not proven a satisfactory deterrent to theft.

This column is brought to you weekly as a public service by the *Chronicle*, the East Winston Crime Task Force and the Winston-Salem Police Department.
