**Guarding Against the "Phony Repairman"**

Beware of the phony "repairman" or "engineer" who offers to check your chimney, furnace, catch basin or other

installation. Such a person comes to your home in working clothes and probably carries a ladder or kit of tools. He'll try to deceive you if you don't stop him.

Take the time to check his credentials carefully and don't let him go into your basement, on your roof or in your backyard until you have done so.

This column is brought to you weekly as a public service by the *Chronicle*, the East Winston Crime Task Force and the Winston-Salem Police Department.
