

Black sociologist to give Bennett speech

Dr. Zelma Weston Henriques, noted New York sociologist and author of "Imprisoned Mothers and Their Children," will address the issue "Stress and Success in the Black Family" at Bennett College on Sept. 25.

The mother of a Bennett College sophomore, Henriques has

been involved with women in New York prisons since 1965, when she began work with the Women's Prison Association. From 1971 to 1974, she served as director of the Children of Offenders Project, a research and demonstration project designed to investigate the situation of imprisoned mothers and their children.

While pursuing doctoral studies at Columbia University, Henriques chose this subject as her area of study. Selected as a Rockefeller Fellow in Human Rights, she visited prisons in Great Britain, Holland, Denmark, Sweden and Switzerland, where she conducted research into the situations of imprisoned mothers and their children.

A frequent guest on radio talk shows, she also appeared in the WABC-TV documentary, "Women in Prison."

A native of Jamaica, West Indies, Henriques and her family reside in New York City.

This lecture, open to the public, will be held in Bennett College's Henry Pfeiffer Science Assembly at 7:30 p.m.

BEFORE THE VOTES ARE CAST IN THIS FALL'S ELECTIONS, WE'D LIKE TO ANNOUNCE A WINNER.

Picking on the power company is standard operating procedure for some folks, particularly in election years. And we certainly don't deny people the right to express their minds. But we'd like to say a few words about our operating procedure. One of our primary goals has always been to generate electricity as efficiently and economically as possible. And we're doing pretty well at it.

A few weeks ago, we won a first place award for producing electricity more efficiently than any

other power company in the United States.

We've won that award six times now. That's quite an achievement. But the real winner isn't us. It's you.

If we had operated at the average efficiency level of all the other power companies, it would have cost our customers nearly \$72 million more last year alone.

We know electricity isn't cheap. But you need to know that we're continually working very hard on your behalf. Not just during election years.

DUKE POWER
